

Crop Control Program Action Awaiting Only President's Approval

Agricultural Department Officials Jubilant Over Congressional Approval of Half-Billion Dollar Program.

FARMER A VASSAL

Republican Leader McNary Hits at Restrictions Provided in Farm Measure.

Washington, Feb. 15 (AP)—Agriculture Department officials, jubilant over congressional approval of the crop control bill, arranged today to begin the new half-billion-dollar program the minute President Roosevelt signs it.

More than 15,000 persons, they said, will have a part in carrying out provisions of the measure, which the Senate passed late yesterday and sent to the White House.

These persons include more than 3,000 employees of the Agricultural Adjustment Administration, and the members of some 2,500 state and county committees.

Two Republican Senators—Capen of Kansas and Frazier of North Dakota—joined with 53 Democrats and Senator Norris (Ind., Neb.) in approving the measure. The 31 votes cast against it came from 17 Democrats, 11 Republicans, two Farmers-Laborites and Senator La Follette (Wisc., Wis.).

Best Farm Bill

"This is the best farm bill that has ever been enacted by the Congress to deal with a great problem of American life," said Democratic Leader Barkley of Kentucky.

Republican Leader McNary of Oregon, on the other hand, commented:

"This bill does only one new thing for farmers. It puts new restrictions upon them and blankets them with compulsion. It will make every farmer a vassal of the secretary of agriculture."

The measure, written by a Senate Agriculture committee from separate bills passed in December by the two chambers, establishes a system under which the agricultural secretary, working with farmers' committees, may prescribe limitations on the quantity of wheat, corn, cotton, rice and tobacco grown or marketed.

In general, it involves adjustment of production according to estimates of supply and demand. When supplies are deemed too high, two-thirds of the farmers voting in a referendum can impose marketing restrictions on all farmers. Penalties are provided for non-obedience.

Final Bill Modified
The final bill modified a provision inserted by dairy and livestock blocs to protect their constituents against new competition. Agriculture Department officials said that despite the change, widespread growth of competition was unlikely.

The new program will be made to fit in with revisions put into the soil conservation program last September. Soil conservation benefits will continue for minor crops, and the cost of the joint program must be held to "available funds"—which have been averaging about \$500,000,000 yearly.

Treasury Receipts
Washington, Feb. 15 (AP)—The position of the Treasury on February 12: Receipts, \$23,935,787.91; expenditures, \$16,905,122.21; balance, \$2,017,654.44. Receipts for the month, \$10,800,524.01. Receipts for the fiscal year (since July 1): \$2,729,672,896.30; expenditures, \$1,488,543,350.12, including \$1,151,726,809.42 of emergency expenditures; excess of expenditures, \$937,869,453.82; gross debt, \$37,577,000,838.48, an increase of \$272,925.49 above the previous day; gold assets, \$12,155,395,177.26; including \$1,223,232,335.44 of inactive gold.

Mob Fires Police Station

Tijuana, Mex., Feb. 15 (AP)—A mob clamoring for the life of the sex slayer of 8-year-old Olga Comacho fired police headquarters here early today after a night of rioting. A young soldier arrested as a suspect and four other men held for questioning had been transferred to a hiding place. The rioters disabled the fire department's pumping engine and refused to allow firemen to lay hoses to the blaze.

Wild Life Week

Washington, Feb. 15 (AP)—President Roosevelt, proclaiming March 20-27 as National Wild Life Week, appealed today to all citizens to unite in working for proper protection and preservation of all wild life. The President said past conservation efforts had been hindered by "destructive exploitation" and lack of proper understanding and sympathy.

Columnist Dies

O. O. McIntyre, (above) noted columnist whose "New York Day by Day" was familiar to millions, died in his Manhattan apartment after a period of illness. He was in his 54th year.

McIntyre's Body Goes Home Today As Cronies Mourn

New York, Feb. 15 (AP)—Accompanied by his widow, his faithful bulldog, Nimble, and a few close friends, the body of O. O. McIntyre will leave tonight for his boyhood home of Gallipolis, Ohio.

The columnist, who died of a heart attack early yesterday in his Park avenue apartment, lay today in a Broadway funeral chapel, surrounded by floral tributes. No funeral services will be held in New York, the city about which he wrote for years, always with the fresh enthusiasm of a country youth.

Instead, the services will take place Thursday afternoon at his boyhood home.

Messages of condolence and floral pieces arrived from friends and admirers in all parts of the country.

The funeral train was scheduled to leave Pennsylvania station at 8:05 p. m., eastern standard time.

Old Cronies Blue
Gallipolis, O., Feb. 15 (AP)—The old cronies of Gallipolis number one citizen sadly made preparations today for the oft-promised, oft-written of but long deferred coming of O. O. McIntyre to Gatewood, the "dream home" he never saw.

The famed columnist who was once known locally as "the best trick bicyclist in Gallia county," but who went to New York to achieve fame in another field, wrote often of Gatewood in connection with his retirement, but did not know that death had overtaken him.

McIntyre died in his Park avenue apartment early Monday morning at the age of 54, so he never saw the "dream home" he bought and remodeled as a birthday gift for his wife, the former Maybelle Hope Small of Gallipolis.

His body, accompanied by Mrs. McIntyre and some friends, will be brought from New York to Gallipolis Wednesday, just as the New York columnist desired. The body will lie in state at Gatewood and all business houses will close to give every resident in this Ohio river city of 7,000 persons an opportunity to pay tribute to a fellow townsman who retained his home ties only through his newspaper column and his correspondence.

Funeral services will be held at 2 p. m. Thursday.

Rear Admiral Cary T. Grayson, American Red Cross Head, Dies At Washington Residence Today

Physician-Confidante to
Three Presidents was
59; Contracted
Cold Last Month

Washington, Feb. 15 (AP)—Rear Admiral Cary T. Grayson, renowned as head of the American Red Cross and as physician-confidante of three Presidents, died early today. He was 59 years old.

The retired naval officer had been in poor health almost from the time his close friend, President Roosevelt, persuaded him to accept one of the world's foremost humanitarian jobs in 1935.

He contracted a cold during a southern visit last month, and developed a bronchial infection after he returned home. Mr. Roosevelt, informed of Dr. Grayson's critical condition, called at his home late yesterday.

Red Cross executives and high government officials joined in tributes to the character and ability of the Virginia-born admiral, who first won national prominence as personal physician to Woodrow Wilson.

Said John L. Fischer, vice chairman of the American Red Cross: "The thing that the admiral liked most as chairman of the Red Cross was the way the people responded last year to his appeal during the Ohio river flood. The Red Cross raised \$25,000,000."

Appeal for \$1,000,000.
One of Admiral Grayson's last official acts was an appeal ordered by President Roosevelt, for a \$1,000,000 popular subscription to aid Chinese left homeless in the Sino-Japanese war.

President Theodore Roosevelt started Grayson on his eminent career by appointing the young naval lieutenant to the White House medical staff in 1907. President Taft kept him on duty there, and President Wilson made him his personal physician after

he had attended the first Mr. Wilson.

For 11 years the wartime president and his doctor were intimate friends. They were together in Europe during the peace negotiations. After Wilson became ill, it was left to Grayson and the second Mrs. Wilson to decide what matters of state should be presented to the president.

Announces Wilson Death
It was Grayson who stood on the steps of Wilson's S street home in 1921 to announce the death of the former chief executive. A year later, the admiral left the navy to practice medicine privately in the capital.

Franklin D. Roosevelt asked him to take charge of his inauguration in 1933, and called on him to perform the same task in 1937. The men had become acquainted while Roosevelt was wartime assistant secretary of the navy.

Admiral Grayson is survived by his widow, whom he met in 1916 while Wilson was engaged to Edith Bolling Galt. Some have

CARY T. GRAYSON

credited the physician with introducing the president and Mrs. Galt.

Two of his sons—Gordon and William—were with Mrs. Grayson at the admiral's bedside. A third son, Cary Grayson, Jr., was rushing home from an African expedition.

White House Physician
Cary Travers Grayson, rear admiral U. S. navy, was most widely known as Woodrow Wilson's physician, but other Presidents, both before and after the world war, knew him as a counsellor and friend.

Grayson first was attached to the White House medical staff in 1907, when Theodore Roosevelt was President and Grayson a lieutenant in the navy's medical corps. Backed by the strong recommendation of Roosevelt, Grayson was kept on by President Taft and Wilson found him at the White House when he took office.

Rotting from the navy after Wilson's death, Grayson became a lieutenant in the inner councils of the Democratic party. With the background and a friendship that had its roots in the Wilson administration, when Franklin D. Roosevelt was assistant secretary of the navy the medical officer was made chairman of the 1933 inaugural committee and was one of the advisers and helpers of the recovery President.

Grayson attained to a considerable reputation in his profession and was president of the American Institute. He moved on to the chief of the Washington county and for several years conducted a Virginia breeding farm and raised a fairly successful string of thoroughbreds.

He was married May 21, 1916, to Alice Gertrude Gordon of Washington. Three sons were born to them.

American Laborites Warn Lawmakers Vote Against Child Act 'Political Suicide'

Bund Meeting Brings Free-for-All

When a German American Bund meeting in Buffalo turned into a wild melee between sympathizers and opponents, American law enforcement officers intervened to quell the disturbance. Here two officers are hustling from the meeting hall a Bund member wearing the Sam Browne belt emblematic of his group.

Winne Says Truck Involved in Crash Had 2 Reflectors Highway Patrol

Chicago, Winne took the witness stand this morning in the negligence action on trial before Judge Traver and a jury in county court recommended to the Legislature and testified that on the morning of May 7, 1936, at about 1:30 o'clock he drove his truck loaded with about six tons of ice down Broadway and stopped just below East Chester street while he engaged a diner. He told the jury that his truck was parked under an electric light but about two or three feet from the curb.

He had been in the diner about three minutes when he was struck by a crash. He found the William Jacobelli truck which he had been driving had been struck by a car of Morris Miller which had been proceeding down Broadway in charge of Dominick Perry.

Tells About Lights
Winne said he had not observed whether the tail light on his truck had been lighted when he entered the diner. He said he had not looked at the tail light to see if it had been burning. The rear of his truck was equipped with two red reflectors. Although it was a rainy morning he said he had been able to see at least a block, or more down Broadway when he drove up to the diner. The rear of his truck had been damaged and the tail light broken when the Miller truck struck it.

10 Regular Passengers
Testimony as to the number of daily passengers who would be accommodated if this petition were granted was also conflicting. There are about 10 regular daily riders between East Kingston and Rondout. At present they may obtain transportation on the Acker line between East Kingston and the uptown bus terminal in Kingston where local buses are available for transportation to Rondout, or on the Ferraro line from East Kingston directly to Rondout. The record indicated that there is certainly no need for two omnibus lines along the same route.

The record indicated some laxity on the part of Frank Ferraro in rendering service along this route. Thus, however, is not sufficient reason for granting a certificate to another petitioner. The commission has ample powers for dealing with operators who render insufficient service. Should Mr. Ferraro continue to render insufficient service an appropriate proceeding may be instituted by the commission and an order issued directing him to give sufficient service to accommodate the traveling public. Upon the record it was concluded that public convenience and necessity do not require operation along the route petitioned for and the petition of Mrs. Acker was, therefore, denied by the commission.

13 Black Disagreements
Washington, Feb. 15 (AP)—Justice Black has disagreed 13 times with the remaining of his colleagues in the five months he has sat on the Supreme Court.

Assault Charge Not Pressed
J. Willard Carson of Richmond Park was arraigned before Justice John Watzka at East Kingston, Monday night, on a charge of assault in the third degree, preferred by his wife. The charge was not pressed and Carson was discharged.

Tell Legislature Every Member
of Two Old Parties Will Be
Held Accountable by Electo-
rate in Autumn.

UTILITY TAX

Three Per Cent Utility Tax Im-
minal to Savings, Say Offi-
cials.

Albany, N. Y., Feb. 15 (AP)—A warning that a vote against ratification of the proposed federal child labor amendment would mean "political suicide" to New York legislators came today from Nathaniel M. Minckoff, leader of the New American Labor Party.

Minckoff led the American Labor Party's argument in support of ratification during a debate which preceded a new vote on the perennial trouble-making proposition.

"Every member of the two old parties will be held to strict accountability in the election to come in their votes today," he warned.

Minckoff asserted that both Republican and Democratic members have been released from party obligation on the child labor problem in recent years, given permission to vote as they please.

"This in plain language is nothing more or less than a device to escape the responsibility," he said. "Yet I dare say it is a political expedient which will not fool the intelligent voters."

Even his debate opponent, leaders of the two old parties, had not the least prospect of another defeat of the long pending proposition of a maximum of 10 favorable votes of the House membership of 190-81 Republican, 61 Democratic and five American Laborites. Seventy-five votes are necessary for approval.

Gross Income Tax
Governor Lehman's three per cent emergency tax on gross income of utilities was returned today by the Public Service Commission as a deterrent to utility rate reductions.

Reporting an estimated annual economy to consumers of \$100,000 through reduced rates, which in 1937 on gas, electricity, telephone, water and steam service, the commission expressed its opinion that the emergency tax retarded further rate reductions.

The commission credited \$1,677,000 of the total annual savings effected last year to reductions made voluntarily by the companies.

The commission reported a continuation of approximately 3,200 miles of new rural electric lines during 1937 and estimated the present rural electrification at 26.5 per cent in 1939.

"The lines built in 1937 have, it is estimated, more than 12,000 new customers," the report said, "and more than 8,000 new customers were added to lines existing in 1936."

During the year 12,000 of the 20,000 new customers, bringing the total "retained" farms to 57,000.

Capital Gains Modification
Governor Lehman called today for modification of the capital gains and losses provision of the state personal income tax law as the Legislature cleared the way for adoption of his proposed \$35,364,615 budget for 1938-39.

Carrying out a recommendation made in his annual budget message, Lehman sent a bill to the legislature designed to segregate capital gains and losses from ordinary net income in computing the tax.

Under the proposal, the capital losses would be deductible only from capital gains. The taxpayer's net capital gain would be taxed according to the existing income bracket schedule, but at one-half the present rates.

A public hearing will be held on the bill for modification on March 1 before the assembly taxation committee, as well as a Republican-sponsored proposal for outright repeal of the provision.

Meanwhile, the Democratic-controlled Senate moved the Governor's proposed budget to order of final passage tomorrow. Leaders are agreed it will obtain swift approval.

Opportunity for Negroes

Legislation designed to give New York's negroes equal opportunity with the general population for "self support and economic development" was proposed in the legislature today.

The measures were introduced by Harlem's Democratic assemblyman, William T. Andrews, simultaneous with an investigation commission's report that the negro population is too large to be neglected "without serious danger to the welfare and safety of the state."

The commission said the ne-

Saugerties By-Pass

Senator Desmond Asks By-Pass as Part of New
Road Program—Part of Middletown Bill
to Provide By-Pass Around That City

Albany, Feb. 15 (Special)—Provision for construction of the Saugerties by-pass is contained in a bill introduced in the legislature late Monday night by State Senator Thomas C. Desmond, Republican, of Newburgh. Assemblyman Lee B. Mailler, of Cornwall-on-Hudson, will sponsor the bill in the Assembly.

The Saugerties by-pass provision is a part of a bill originally introduced by Senator Desmond to effect a complete outline of the proposed by-pass to be constructed around the city of Middletown. The measure, introduced at the request of the state highway department, has been referred to the Senate internal affairs committee

for further consideration. In introducing the bill, Senator Desmond made public the following communication from Capt. Arthur W. Brandt, state highway commissioner, under whose jurisdiction the bill was drawn:

"I am attaching herewith three copies of a bill to amend Route 3 in Orange and Ulster counties. The portion in Ulster county has to do with the by-pass of the village of Saugerties, and I am quite sure that the authorities of that village and that county are solidly behind it, as we have been petitioned by the village for several years to construct such a by-pass. The portion having to do with Route 3 in Orange county, has been approved by the county authorities."

Jackson Tells Senate Group He Deplores "Family" Rule of U. S.

Paltzonian Has
Wild Life Exhibit
For World's Fair

New Paltz, Feb. 15.—(Special)—When the 1939 World's Fair opens on the Flushing meadows, not the least of the wild life exhibits, it is thought, will be that owned by John Messmer, retired auctioneer, who lives on the New Paltz-Highland road.

Mr. Messmer, who owns an entire swamp which he operates as a humus farm, considered one of the most valuable in the area, has accumulated from his bog an interesting collection of animals and birds. The specimens are stuffed and mounted.

The group occupies a whole room in his residence. It is typical of Mr. Messmer that the central figure, instead of being a wild-eyed catamount, is his little black pointer, "Taxi." It was the dog who discovered the majority of the animals and birds.

Included in the collection is a family of red foxes; in addition there are gray squirrels, muskrats, weasels, snapping turtles, a family of owls together with one horned specimen with a four-foot wingspread. One of the weasels is an albino with a black tip on its tail. A handsome group of

**Says He Considers "60
Families" Symbolic of
Concentration of
Nation's Wealth**

Washington, Feb. 15 (AP)—Assistant Attorney General Robert H. Jackson told a Senate committee today that whether "60 families or 150 families" controlled the economic life of the nation he was "against that kind of concentration."

Jackson made the assertion while testifying before a Senate Judiciary subcommittee considering his nomination to be solicitor general.

Senator Austin (R-Vt.) asked Jackson about the speeches which he and Secretary of the Interior Ickes made recently against monopoly.

Austin quoted from Ickes' speech in which the interior secretary said that industry was controlled by 60 families and that more than half the wealth of the country was controlled by 200 corporations.

Austin asked if Jackson agreed with Ickes that the economic wealth of the country was concentrated in the hands of a few families and that management was even more concentrated.

"Yes," Jackson replied. "I never made any examination of that particular 60 families, but I consider the 60 families a mere symbol. It doesn't make any difference whether 60 or 150 families control industry. I'm still against that kind of concentration."

Jackson said it was true that more than one-half of the wealth of the nation was controlled by 200 corporations.

Austin asked if the assistant attorney general knew how many of the nation's workers were employed by those corporations.

"They are very large employers," Jackson said. "The source of their wealth is largely the use of other people's services."

"Wouldn't the destruction of these institutions cause a large amount of unemployment?" Austin inquired.

"I never heard any suggestion that these institutions be destroyed," the witness retorted.

"Wasn't that the implication in those speeches?"

"No, sir. There are certain holding companies and certain financial controls that would be destroyed if I had my way about it, but that doesn't affect employment."

Jackson defended the government's conduct of the Madison, Wis., anti-trust law conspiracy cases against oil company executives accused of fixing of gasoline prices.

Mrs. Acker Denied Right to Use River Road For Busses

Albany, Feb. 15 (Special)—An application filed by Mrs. Katie Acker for a certificate of public convenience and necessity for the operation of a motor bus line between the City of Kingston and the hamlet of East Kingston in Ulster county, has been denied by the Public Service Commission.

It was proposed to operate the route along River Road. Mrs. Acker now operates an omnibus line between Kingston and East Kingston by way of the Flatbush Road. Frank Ferraro operates a line between the same points along River Road and he opposed the petition of Mrs. Acker. If her petition were granted both would have concurrent rights along the same route and between the same terminals. The testimony showed that Mr. Ferraro ceased to operate his route last fall and the reasons for such lapse in service are conflicting. Mrs. Acker stated that such failure was intentional, while Mr. Ferraro claimed the cessation was caused by overhauling and repainting of buses used on this route.

10 Regular Passengers
Testimony as to the number of daily passengers who would be accommodated if this petition were granted was also conflicting. There are about 10 regular daily riders between East Kingston and Rondout. At present they may obtain transportation on the Acker line between East Kingston and the uptown bus terminal in Kingston where local buses are available for transportation to Rondout, or on the Ferraro line from East Kingston directly to Rondout. The record indicated that there is certainly no need for two omnibus lines along the same route.

The record indicated some laxity on the part of Frank Ferraro in rendering service along this route. Thus, however, is not sufficient reason for granting a certificate to another petitioner. Should Mr. Ferraro continue to render insufficient service an appropriate proceeding may be instituted by the commission and an order issued directing him to give sufficient service to accommodate the traveling public. Upon the record it was concluded that public convenience and necessity do not require operation along the route petitioned for and the petition of Mrs. Acker was, therefore, denied by the commission.

G. O. P. Women Guests at Albany

Today 21 Ulster county members of the Women's Republican Club are being entertained at Albany as guests of Senator Arthur H. Wicks and Assemblyman J. Edward Conway. The ladies will attend a legislative forum this morning and later visit both sessions of the Senate and Assembly where they will have an opportunity to see the legislature in action. The Assembly was prepared today for a prolonged debate and vote on the off-rejected resolution to ratify the Federal Child Labor amendment, sponsored by Democratic Assemblyman W. T. Andrews, Harlem negro. The guests anticipated visiting a portion of this procedure. Defeat of the bill is predicted.

Also on the program of entertainment for the ladies is luncheon at the Ten Eyck Hotel where they will be guests of Senator Wicks and Assemblyman Conway. At luncheon Mrs. Jane Todd Westchester assemblywoman, will address the ladies on legislative matters. Natalie P. Couch, journal clerk of the Assembly, was also to be a guest at the luncheon as one of the speakers.

Those attending are: Miss Marguerite M. Quirk, High Falls; Mrs. Harry Snyder, Cottekill; Mrs. Elton Parry, Jr., High Falls; Mrs. Ganss Beach, High Falls; Miss Emma Seapatt, Stone Ridge; Mrs. Jesse Davis, Rosendale; Mrs. Edward Hubon, Rosendale; Mrs. Andrew Snyder, Rosendale; Mrs. Eugene Galtin, Rosendale; Mrs. Edward Demaree, Rosendale; Mrs. A. DuBois Rose, Mrs. Ruth Brinnier, Mrs. Viola Babcock, Mrs. Arthur Davis, Mrs. Arthur Hasbrouck, Mrs. Frank O'Reilly, Mrs. Harry Walker, Mrs. Mary Otto, Miss Mary Treadwell, Mrs. Frank Burr and Miss Blanche Burr, of Kingston.

Our Growing Population

The following births have been reported to the Board of Health:

Mr. and Mrs. Albert R. Whinnie, of Saugerties, a son, Albert Richard, at Benedictine Hospital.

Mr. and Mrs. Arthur C. Pettit, of Kerhonkson, a daughter, Marilyn Jean, at Kingston Hospital.

Mr. and Mrs. Herman Gunter, of 106 Clifton avenue, a daughter, Jane Hutton, at Kingston Hospital.

Mr. and Mrs. Abe Ziedlie, of 13 St. Mary's street, twin sons, Israel and Michael, at Kingston Hospital.

Mr. and Mrs. Meyer W. Cohen, of 161 Bruyn avenue, a daughter, Vanda Lee, at Kingston Hospital.

Mr. and Mrs. Clark E. Bonesteel, of Port Ewen, a son, Richard Alan, at Kingston Hospital.

Mr. and Mrs. Anthony V. Kirk, of 127 O'Neill street, a daughter, Jennie Elizabeth, at Kingston Hospital.

Mr. and Mrs. Joe Edward Knight, of Mr. Marion, a son, Glen Everett, at Kingston Hospital.

Mr. and Mrs. Worthington E. Paley, of 174 Elmendorf street, a son, Ronald Worthington, at Kingston Hospital.

Mr. and Mrs. Stuart E. Sonne, of 21 Shufeldt street, Stuart LeRoy, Jr., at Benedictine Hospital.

Mr. and Mrs. Clarence Burgher, of West Shokan, a daughter, Betty Ann, at Benedictine Hospital.

Fashion has realized at long last that for many women, life begins in the fascinating fifties. No longer do they confine their wardrobes to coat dresses, surprise bodices, finger tip jackets or the all-concealing jabot. For her new leisure and for every social activity an infinite variety of styles are available.

JANE DARLING—

How can I ever thank you enough for suggesting Cuticura Soap and Ointment for my blackheads and coarse pores. These beauty-robbing faults don't last long once Cuticura acts to work. The whole family uses it now. Always, Mary. Soap 25¢, Ointment 25¢, FREE sample. Write Cuticura, Dept. 4, Malden, Mass.

Valley Sunday School Rally

Stone Ridge, Feb. 14—The Rondout Valley Sunday School Association held its rally at the Stone Ridge Reformed Church on Friday evening. About 250 persons were present.

L. C. Dixon, president of the association, was in charge. The opening hymn, "Come Thou Almighty King," was followed by the invocation given by the Rev. C. V. W. Bedford, of Bloomington. The minutes of the last meeting and the treasurer's report of a balance of \$20.63 were accepted as read by the secretary, Miss Marguerite Randegger.

The roll call showed that Cottekill with 23 present had the largest attendance over 12 years of age.

The Rev. Harold Hoffman, dean of the Rondout Valley Sunday School Teacher's Institute, reported that 49 registered and 35 received certificates; 11 on the course "How to Administer Sunday School," 13 on "Personal Religious Living," and 11 on "Christ Through the Centuries."

The Rev. Ben Scholten, president of the Institute reported a deficiency of \$7.75, \$5 of which was from loss of five books.

Motion was made and carried that the association pay the \$7.75 to the Rev. Mr. Schadeewald, treasurer of the Institute.

The entertaining Sunday School from Cottekill sang in a very effective manner "Hear Ye the Master." The Junior sermon was given by the Rev. Harold Hoffman, who gave a most helpful message to young and old.

The reading of scripture by the Rev. Ben Scholten was followed by a most effective prayer by the Rev. Frederick G. Baker. The Rev. Mr. Achterkirch gave a very impressive offertory prayer.

Leslie Barringer, a grade school pupil from Cottekill, rendered a solo "In the Temple" in such an able manner as to receive a very loud and long applause.

The Rev. Harris Reed, of Hurley, was introduced as the guest speaker. The Rev. Mr. Reed's message was exceptionally valuable not only to Sunday School teachers but to all trying to live the Christian life.

The attendance banner was won by the Kerhonkson Reformed Sunday School with 83 per cent and Hurley Reformed was second with 82 per cent.

The association was invited to have the May rally at Kerhonkson Reformed Church. The benediction was pronounced by the Rev. Harold Hoffman. A social hour followed.

In Idaho the Grange is widely encouraging the planting of trees and the beautification of homes and public buildings by the setting of shrubs and flowering plants. Many Granges offer prizes for the best-cared-for lawns and flower gardens accomplished by members; many conduct annual flower shows and tree exchanges, flower exhibits and similar events are given a large place on this year's program among Idaho Granges.

FACES NEW TRIAL

Paul Wright, convicted by a Los Angeles jury of manslaughter in the slaying of his wife and John Kimmel, shown after the verdict as he suffered from fever in the jail hospital. The same jury was to hear evidence on his plea that he was insane at the time of the killings.

Radio operators apparently do not realize that while the Constitution may guarantee free speech, it does not guarantee listeners.

Dean Rascoe Pound of the Harvard Law School said in New York:

"The man who thinks that the college woman is over-educated, is usually under-educated himself. 'A city father once said at a municipal meeting: 'You can always tell a woman who has had the advantage of a higher education.' 'Aw, get out,' said another city father. 'You can't tell her nothin', she knows it all.'"

Success is doing what you want to do and making a living at it.

Janice—How do you like your new boss, Mayme?

Mayme—Oh, he ain't so bad, Janice, only he's kinda bigoted. Janice—Whatta y'mean, bigoted?

Mayme—Well, he thinks words can only be spelled one way.

Some men hop from one trouble to another without even stopping to take a deep breath.

A woman's view is often different from that of a man, because she has a different sense of value. For example a woman had much rather have good clothes, and the like, than the reputation for being a "lolly good fellow."

Kathleen—Didn't you ever think seriously about getting married?

Frederick—Sure. That's why I never married.

According to an observant church member, more folks have patches on the seats of their trousers from backsliding than on their knees from praying.

Gladys—How did you happen to quit teaching school to join the chorus?

Edith—Because there is more money in showing figures to the big boys.

So many fat persons are given credit for being good natured. . . . Possibly it's because the large people as a rule can neither fight well nor run fast.

Father (of girl)—So you want to marry my daughter, eh? Well, my answer depends upon your financial position, young man!

Young Man—What a coincidence! My financial position depends upon your answer.

Humor pays rich rewards, but there is always the danger of being shot before you can explain that you were joking.

Read it or not: The standard piano key-board has 88 keys; 52 white keys and 36 black ones. There are 225 wires (strings) in an average piano.

Lady (at the church bazaar)—Buy some flowers to present to the girl you love.

Prospective Customer—That wouldn't be right. I am a married man.

Open Letter to the Red Cross: Instead of saying "Help the Red Cross," why not strengthen the appeal and change the viewpoint by saying: "Support the Red Cross so it may help others—maybe you?"

Lumberjack—I'll match you for a kiss, baby.

She—But there are no tails on your coin.

Lumberjack—It takes two heads to kiss, baby.

A wife may be the boss, but that doesn't mean she likes to be called "The Boss."

A diplomat is a man who can make his wife believe she would look fat in a fur coat.

(The Moss Feature Syndicate, Greensboro, N. C.)

During 1938 the rural electrification administration expects to finish or place under construction some 70,000 miles of rural power lines. These will provide light and power for 1,000,000 persons, for some 300,000 farm homes, schools, churches and meeting halls.

Alaska's 1937 mineral production was worth nearly four times the sum the United States paid Russia for the territory 71 years ago.

TO GATHER DATA ON EARLY AMERICANS

Professor Seeks Proof They Crossed Bering Strait.

Edmonton, Alta.—Seeking to solve the problem of who were the original inhabitants of the North American continent, Prof. W. L. Bliss of the University of Alberta visited Edmonton to confer with Dr. J. A. Allen, head of the University of Alberta geology department, and to gather data on his theory that North American races originally came from Asia by crossing the Bering strait and traveling south through Alberta.

Dr. Bliss hopes to find many links for this theory in a study of Alberta province and the Mackenzie river valley. He contends that there have been no reasons to suppose that the first people originated there and says "it is generally accepted that American cultures are the result of a number of migrations from Asia."

The professor bases his theory on the fact that the Bering strait is only 60 miles wide at one point and 30 fathoms deep. Geological history has indicated that the two continents broke away at this point and sank into the sea, creating the land bridge.

Proof that the original habitation of this continent was Asiatic is confirmed by discoveries of Oriental relics in Mexico and the southwestern states. The Indians' physical resemblance to Asiatics and the distribution of languages in North America has led Bliss to believe that they spread out in a fanlike direction south and east from Alaska.

Anthropologists further believe that migrations from Asia came at different periods. Investigations reveal a certain type of Pueblo Indian that possessed a narrow head, and another type with a round head, hinting at a possibility of more than one migration. According to anthropologists, man has lived on this continent for more than 12,000 years.

Dr. Bliss has spent many years on research both in America and Asia. When his investigations are completed here, accompanied by Dr. Allan and A. Haynes, University of New Mexico student, he will continue northward along the Mackenzie river into Alaska.

Spinning Wheel Earns Living for This Family

Rushmore, Minn.—Mrs. Martha Odens, who carded her first pound of wool when she was eleven years old, is in favor of the old spinning wheel.

She still follows the pattern of grandmother's day and earns a comfortable living for herself and children by carding and spinning wool, which she knits into a variety of articles. Her market, she says, reaches as far as Illinois. Her output last year, she said, included washing and carding the wool for 11 comforters, 118 pairs of mittens, and 18 sweaters, all of which she knit herself. In her spare time she finds leisure to crochet lace and insertions for pillow cases, and fancy tops for sofa pillows.

Mrs. Odens' first tutor was her grandmother, who acquired the art in her native Germany. The wheel she now operates was purchased for her by her late husband 21 years after she had "worn out" the one she had used for years previous to that time.

Nazi Ancestor Worship Spreading in Germany

Berlin.—Ancestor worship such as that practiced by the Japanese and Chinese has appeared in Germany along the Baltic sea coast, notably in Mecklenburg, which has become the center of extreme Germanism and neopagan experimentation.

The head of the National Socialist party in Mecklenburg has ordered that unused chapels be transformed into "ancestral halls." Here ancestral tablets will be placed, containing the names and symbols of families in the vicinity.

A regional cultural director of the party recently dedicated such an ancestral chapel. It was decorated with a swastika and the ceremony opened with a Chopin prelude. The party official delivered an address and then "received into the community of all Germans" six children of a local family.

Like ceremonies are taking the place of Christian marriage and baptism in coast villages.

Britain Opens Fattening School for Its Recruits

London.—A new "fattening school" for British army recruits, rejected as unfit, is to be started in Canterbury as a result of the success achieved by an experimental one at Aldershot.

The Aldershot school opened with 200 flat-chested, undernourished men. They were put on a diet of fresh fruit, fresh milk and barley sugar. With fresh air and light exercise they put on an average of six pounds in weight and one inch in chest measurement in six weeks. Today the depot is turning out "reclaimed" men for the army at the rate of one a day.

Locomotive Has No Rivets Albany.—A locomotive with a fusion-welded boiler—the first of its kind ever constructed—has been placed in service by the Delaware & Hudson railroad.

Flatbush Mrs. Edgar Clarke, of Milton, will give the third lesson on "Understanding Each Other" to the Flatbush Home Bureau Unit on Thursday afternoon, February 17. Mrs. Winfield Swart will be the hostess and she has requested that the members meet with her at 80 Furnace street instead of her home on Prospect street.

What Is Your News I. Q.?

(By The AP Feature Service)

Each question counts 20; each part of a two-part question, 10. A score of 60 is fair; 80 good.

1. Who is this officer? Does he favor moving most of the fleet from the Pacific to the Atlantic?
2. What is a shelterbelt? Has the U. S. abandoned plans for one stretching from Texas to the Dakotas?
3. The marriage of Field Marshal Von Blomberg had nothing to do with the recent shakeup of German army leadership. True or false?
4. Because of the fear of air raids, did the Spanish parliament (a) meet in a small town just over the French border, (b) postpone its session, or (c) meet secretly in a monastery?
5. What was the first major legislation passed by congress this year?

Answers To News I. Q.

1. Admiral Leahy (pronounced Lay-thee), chief of naval operations.
2. Rows of trees to break the wind. No; 44,000,000 trees and shrubs have been planted, and the work is continuing.
3. False. The marriage was not

the only reason for the shakeup, but it precipitated it.

4. It met secretly in a monastery.

5. A bill making financing terms easier for builders of homes.

REAL ESTATE TRANSFERS

Deeds Recently Filed in the Office of the County Clerk

The following deeds have recently been filed in the office of the county clerk:

Dayton P. Shultis and wife of Bearsville to Lawrence Shultis and wife, land in town of Woodstock. Consideration \$1.

James Van Beuren, of Kansas City, Mo., to Minnie Van Beuren Tansill of Kingston, land on Green street. Consideration \$1.

1200 PEOPLE WANTED—At Auditorium Thurs. Night at 8:30. —Adv.

Mystery Shrouds Two Missing Men

The disappearance of two men in Kingston is still shrouded in mystery, and the police department has failed so far to locate them. The last they were seen was in the downtown business section, and then they dropped out of sight.

Captain Thomas Murphy of 47 Hanratty street was last seen on December 23. He was employed by the Dwyer Brothers in charge of Barge No. 12, which tied up for the winter in the Rondout creek on December 21 of last year. The police were told that Captain Murphy carried a considerable amount of money on his person.

The other missing man is Theodore Bell, 36, of 42 Halpe street, who has been gone for three months. This morning his brother called at police headquarters to see if any trace of the missing man had been found. Bell was last seen on Ferry street near the Rondout creek dock.

NEGLECTED ACTIONS SETTLED ON MONDAY.

A negligence action brought by Helois Re against Paul Hinkle and Dorothy M. Schwalbach was announced settled in county court Monday afternoon when the day calendar was called by County Judge Frederick Traver. Walter J. Miller appeared for the plaintiff and Cashin & Ewig are attorneys for defendant.

A second action for goods sold and delivered and money damages was also announced settled when it was called. This is an action brought by Kingston Oil Company against Sidney Halpern, S. J. Fowler is attorney of record for plaintiff and Wiswahr, Walton, Wood & MacAffer for defendant.

No. 54, Alton Smith against Edward A. Seymour, a mechanic's lien foreclosure action, went over the term.

There were no additions to the day calendar Monday but Judge Traver announced that he would make additions this afternoon.

The use of red copper oxide as a spray for greenhouse seedlings to prevent damping-off, stem rot, and leaf diseases in place of Bordeaux mixture or copperlime dust as previously recommended, seems to be supported by evidence accumulated in tests made by plant disease specialists at the State Experiment Station at Geneva.

Nine Employees on Ashokan Said To Be Facing Ouster

There are rumors, which according to available information have a good basis of fact, that some nine men who have jobs connected with the Ashokan Reservoir, serving under temporary appointment for a number of years past, are to be let out in the near future and their places filled with appointees from a civil service eligible list recently established.

So far as can be learned no action to that effect has been taken as yet, but it is understood that letters have been received by a number of men who successfully passed examinations last fall asking them whether they would accept an appointment if it were tendered them.

The present situation arose, it is stated, through the fact examinations have not been held for several years, although formerly it was the custom to hold examinations as often as necessary to maintain an eligible list. The last examination was held in 1922, the list established at that time being good for one year. Since then as vacancies occurred in the Ashokan force temporary appointments have been made, with the consent of the commission.

Since no examinations were held for a number of years these temporary appointees were unable to qualify for permanent positions. When an examination was called for last fall, some of the men holding jobs were beyond the age limit, which had been set at 35 years. Moreover, word was received in Ulster county that no new applications to take the examination would be accepted, but that the examination would be given only to those who had filed application five or six years ago.

As a result these men who have been filling positions acceptably for a number of years find themselves facing probable lay-off, without having been given any opportunity to take examinations and put themselves in position to receive permanent appointment.

PORT EWEN

Port Ewen, Feb. 15.—The Men's Community Club will hold its annual Ladies' Night in the Reformed Church hall this evening. The Hon. Roger H. Loughran will be the speaker of the evening.

Mrs. Daniel Cody, who has been visiting her parents, Mr. and Mrs. Lafayette Terpening, returned to her home in Brooklyn Saturday accompanied by her mother, who will visit at the Cody home.

Henry Deane, Jr., who works in Albany, spent the week-end at his home here.

The Dorcas Society will hold a card party in the Reformed Church hall Thursday evening. The public is invited to attend. Refreshments will be served.

Arthur Fowler spent the week-end at his home on Bayard street.

Mr. and Mrs. Alexander Luther of Middletown were Saturday callers at the home of Mr. and Mrs. Henry Deane.

Mrs. August Albrecht of Kingston spent Saturday with her sister, Mrs. A. W. Short.

The Ladies' Aid Society of the M. E. Church will hold a clam chowder sale in the church house on Friday, February 25.

Mr. and Mrs. Jack Short of Newburgh were Sunday guests of their parents, Mr. and Mrs. A. H. Short.

Esopus Council, No. 42, Sons and Daughters of Liberty, will hold its regular meeting Wednesday evening.

SAUGERTIES NEWS

Large Audience

Saugerties, Feb. 15.—Dr. Donald G. Barnhouse, of Philadelphia, Pa., preacher, delivered a forceful message to a large congregation in the First Baptist Church of Saugerties on Friday evening when nearly 450 people listened with interest on the discourse. "Know ye not that they which run in a race run all, but one receiveth the prize?"

LIONS CLUB DINNER HELD MONDAY EVENING

Saugerties, Feb. 15.—A dinner was given to the winners of the Lions Club attendance contest in the Exchange Hotel on Monday evening. The committee in charge of arrangements was headed by John C. Sauer, Harold Kamp, Dr. R. B. Ball, William Westendick, Dr. Sonking, George Thornton, William Kelly, J. Keenan, Thomas Waye, Father Harty, John Cornright, William Cotton, Bud Banks. The hosts of the evening were Hoyt Overbagh, R. Snyder, George Kerbert, Sidney White, Dr. Gifford, S. Lerner, Ernest Snyder, Floyd Van Loun, R. Winston, Frank Tongue, Clyde Gardner, Grant Morse, R. Overbagh.

Graduates With Honors

Saugerties, Feb. 15.—Albert Naudain, son of Mr. and Mrs. H. W. Naudain of Palenville and a title, was graduated from the University of Saugerties High School, was graduated from the University of Alabama on January 22 with high honors, having been on the dean's list with "A's" in all final examinations. Naudain was taking a course at the school of Commerce and Business Administration leading to a Bachelor of Science degree.

High School News

Saugerties, Feb. 15.—An interesting article in regard to the progress made in the Saugerties school is in the current issue of "The Ulsterite," a school publication.

Twenty years ago the Saugerties high school had 19 teachers, 141 pupils, and 10 graduates. In 1937 the high school had 19.5 teachers; 3.5 that were special teachers; 538 pupils and 87 graduates. Twenty years ago there were 354 Regents papers and 49 papers were sent to Albany; 25 being rejected which gave the school a percentage of 48. The 1937 S. H. S. wrote 622 regent papers, 1,151 local examinations, and 537 papers were sent to Albany, and six were rejected giving the school a percentage of 93.3. Twenty years ago five graduates of the Saugerties high school entered higher institutions of learning. In 1937 there were 14 went on to higher learning and seven returned for post graduate courses. Twenty years ago the total expenditure for the local school system was \$29,661.51. In 1937 the total expenditure was \$108,458.64. These facts show much advancement in the local school system and more pupils are now attending the schools, which offer courses in many subjects that were unknown to the pupil 20 years ago.

WEST CAMP MAN RECEIVES INJURY IN ACCIDENT

Joseph McCutcheon, of West Camp, suffered a broken nose and other injuries on Sunday when the car in which he was riding skidded on the pavement on the 9-W highway near the Vocational Institute at Coxsackie and turned over twice, landing in a field near a pond of water. The car was owned and operated by Lynn Court, of Cementon.

College President to Speak

Saugerties, Feb. 15.—Dr. James S. Thomas, president of Clarkson College of Technology in Potsdam, and also president of the Chrysler Institute of Engineering in Detroit, Mich., will deliver an address to the students of Saugerties High School on March 25 in the auditorium. The public is invited.

St. Patrick's Day Dance

Saugerties, Feb. 15.—The Saugerties Fire Department, which includes four departments of this

Dental Society Of State To Meet

Ulster county is expected to send a delegation of dentists to the 70th annual meeting of the Dental Society of the State of New York in Hotel Syracuse, Syracuse, May 10, 11, 12 and 13, when more than 2,000 dentists from all parts of the state will convene.

Six registered clinics, 16 table clinics, six topic discussions, essays on the latest topics of interest in dentistry and seven post-graduate courses of study, conducted by men outstanding in the profession, both in and out of New York state, will be conducted.

Dr. C. Willard Camaller of Washington, D. C., president of the American Dental Association, will address the first evening assembly.

For the social part of the meeting, luncheons and dinner dances are scheduled. Special features have been planned for the entertainment of the dentists' wives, assistants and hygienists.

SENATOR'S DAUGHTER CIO PROPAGANDIST

Frances Wheeler (left), 21-year-old daughter of Senator Burton K. Wheeler of Montana and Marion Hepburn, 19, sister of screen star Katherine Hepburn, were among CIO workers who passed out union literature to government employees at the entrances of federal buildings in Washington.

POSSE CAPTURES SHERIFF SLAYER

Sought for killing a sheriff and wounding an officer when they attempted to arrest him on a sheep-stealing charge, George Pingley, a farmer, was captured by a posse in the Great North Mountain area near Winchester, Va. Handcuffed and disarmed, Pingley is shown with two officers of the posse which captured him. A crowd of 500 gathered at the Winchester jail when he was brought there.

HIGHLAND NEWS

Highland, Feb. 15.—The pupils in the primary grades in the Presbyterian Sunday School taught by Mrs. D. S. Haynes and Miss Mildred Gruner have just completed a model of the church, and this was on the platform in the church Sunday morning while the little folks took part in the service by two hymns sung. The little folks had studied the building and were even up in the square bell tower in their search of detail. The senior elder, A. Winthrop Williams, had assisted by relating historical tales of the early church as he remembered it. The little model is very complete in every detail and will be on exhibit for some time. There are fifteen of the primary children who worked on the building.

Word received from Mrs. Fred Lewis Vail reported a very smooth ocean trip to Bermuda and there the party met Mrs. Bess Howell Thurber. As Miss Bess Howell she was a former resident of Highland.

A surprise party was given Miss Joyce Boyce Saturday evening at the home of her parents, Mr. and Mrs. Edgar Boyce. The occasion was her 14th birthday. The young people were: The Misses Doretta Bradshaw, Elaine Carpenter, Gloria Rhodes, Jean Schauter, Betty Ward and the hostess, Roger Boyce, Harold Vandervoort, Richard Corwin, Kenneth Relyea, Abram Deyo, Frank Farham. Dancing was enjoyed during the evening.

There were 18 members present at the Frances E. Willard Memorial meeting Thursday afternoon at the home of Mrs. A. W. Williams. The talk on Miss Willard was ably given by Mrs. Jesse R. Rose, who also touched upon many reformers. Mrs. James Swift reported that \$20 was cleared from the noon meal served at the recent W. C. T. U. conference held here. This money goes into the local treasury. Refreshments were served by the hostesses and Miss Julia Van Keuren.

Miss Ruth Haynes entertained Friday evening at a Valentine party. The house was decorated and the refreshments carried out by the date celebrated. Attending Republican Club Wednesday evening, Mr. Loughran is to talk on the subject of the festival and explain the ways for local organizations to help in making the affair a success. Walter R. Seaman is

Robert Coutant, Kenneth Relyea, Richard Corwin.

Another in the chain of afternoon parties inaugurated in the fall by Mrs. Alfred Laine and Mrs. Charles Champlin was held Friday afternoon by Mrs. A. W. Williams and Mrs. Julia Van Keuren. The games of bridge, 300 and dominoes were played by Mrs. W. D. Corwin, Mrs. Victor Salvatore, Mrs. Charles Whitaker, Mrs. Fred Whitlow, Mr. D. S. Haynes, Mrs. Frank Willow, Mrs. Emily Hasbrouck, Mrs. George E. Dean, Mrs. Rachel Rowley, Miss Charlotte MacCarger, Mrs. Lester Simpson, Mrs. Jennie Abrams, Mrs. Alfred Lane, Mrs. Charles Champlin, Mrs. Carrie Ostrander, Miss Julia Van Keuren. Delicious refreshments were served by the hostesses.

The trustees of the Methodist Church are meeting Tuesday evening at the home of J. P. Whiteby.

Members of the local P. T. A. will attend the conference to be held in Kingston on Friday.

Roger K. Loughran of Kingston, chairman of the Apple Blossom festival, is to be the speaker at the February meeting of the Republican Club Wednesday evening. Mr. Loughran is to talk on the subject of the festival and explain the ways for local organizations to help in making the affair a success. Walter R. Seaman is

president of the club and will provide Refreshments will be served by Ralph Lyons and his committee.

The Board of Education will meet Friday, February 15, for the purpose of opening bids for the construction on the new high school building. The contracts are let in several different groups and each bid as a separate unit. Odenburg is visiting her niece, V. J. Costanzi, Inc., has about completed his work in excavation for the foundation and goes from here to Red Hook where he has another contract awaiting him.

The new dial system of using the telephone will become effective at 11 o'clock on February 16. There was erected a new brick building on the Milton road to house the new equipment, and a series of workmen have been employed since early fall working in their various lines toward the installation.

Mrs. James Stewart of White street recently celebrated very quietly her 89th birthday. Her daughter, Mrs. Ella Birchill, makes her home with her mother.

Mr. and Mrs. Louis Carroll, who have occupied rooms in the J. J. Hasbrouck house on Maple avenue, recently moved to Yonkers where Mr. Carroll has employment.

The house of Mrs. Margaret Dohrman on the Milton road is nearing completion. Workmen are doing the inside finishing.

The William Quick house on Washington avenue has been purchased by Mr. and Mrs. Martin Salomon. Mr. and Mrs. Salomon, formerly of New York, have occupied the Hillier on Grand street for several years.

Miss Charlotte MacCarger of Odenburg is visiting her niece, Mrs. George E. Dean, for several weeks.

The session of the Presbyterian Church will hold its monthly meeting on Wednesday evening at the manse.

A silver tea was held Tuesday afternoon at the home of Mrs. Charles L. Dullith with Mrs. Walter Constable assisting hostess.

Mr. and Mrs. Roland Barkley of Grahamsville were in town Tuesday and called upon many of their friends here.

WINTER DRIVING HINT

No. 18

SACRED WASH DAY

New York state is realizing the
 potency of family custom and
 nursery rhymes. The Laundry
 Minimum Wage Board has been
 trying to ease the troubles of the
 laundry business by "staggering"
 the work through the week and
 avoiding "peak days." But appar-
 ently it can't be done.

"Monday's the day we wash our
 clothes," sing the children, and so
 it has to be. Mother, influenced
 by this old rhyme and made infor-
 mable by lifelong practice, must
 either do her own washing on
 Monday or send it to the laundry
 on that day. Occasionally a house-
 wife rises above superstition and
 tries to get her laundry done to
 do the clothes on Tuesday or Wednes-
 day, but usually in vain. Now
 all the power of the 2,200 laundry
 plants in the Empire State cannot
 induce women who are public
 laundries to stop sending their
 soiled clothes out on Monday and
 expecting them back by the middle
 of the week.

The laundries and the state
 board, however, are still hoping to
 stabilize the industry. Perhaps
 they should enlist the schools, and
 teach the young children to sing,
 "Any old day we wash our
 clothes."

DIPLOMACY

It is just as well that attention
 has been called to our State De-
 partment at Washington lately,
 even though the occasion was a
 sort of congressional bawling party
 for diplomats, with some senators
 afraid the country was being
 given away. The State Depart-
 ment is too little known to the
 public. We are inclined to forget
 nowadays that it is the oldest and
 most honorable of our federal de-
 partments, that the Secretary of
 State heads the President's cabi-
 net, that the department is re-
 garded as our "first line of de-
 fense"—the Navy being second
 and the Army third.

It costs us less than one per
 cent as much as the army and
 navy. For about \$10,000,000 a
 year it keeps on friendly terms
 with foreign nations, exchanges
 information and courtesies with
 the heads and representatives of
 other governments, makes treaties
 that mean war or peace, profit or
 loss, oils the machinery of world
 intercourse, looks after our inter-
 ests and citizens abroad, and per-
 forms a thousand useful and deli-
 cate services most of which are
 never advertised.

We don't notice this depart-
 ment until there comes a "Panay
 incident" in China, or a question
 of naval cooperation with some
 friendly country in time of war.
 Then all at once the public real-
 izes the power and responsibility
 vested in those spats, canes and
 lug hats.

HALL-MARKED HOUSES

The English Master Builders' Association has decided that it is
 time to protect sound building and
 curtail shoddy building. There
 has been a good deal of the latter
 since the World War. Beginning
 in Birmingham, the home of hall-
 marked gold and silver products,
 the association is going to hall-
 mark well-built houses.

The plan provides for thorough
 inspection of a house during its
 construction and after its comple-
 tion. A builder who has met all
 the requirements of good mate-
 rials and good workmanship will
 then be given a certificate and
 permitted to insert in a prominent
 position an air-brick of special de-
 sign as a hall-mark of excellence.
 This plan assures the builder
 recognition of the quality of his
 house. It tells the buyer what he
 is getting. It is hoped that it will
 make things so difficult for the
 Jerry-builder that he will mend
 his ways and improve his houses.
 There has already been a start at

this sort of thing in some cities
 of the United States. The "hall-
 marked" house not only meets the
 local building code requirements
 but possesses guaranteed quality
 beyond literal, legal specifications.

TEACHING PEACE

A group of high school teachers
 want peace education made a re-
 quired part of the school curricu-
 lum in their state. They would
 have a one year course in world
 history added to the usual Ameri-
 can history and civics. While it
 may be questioned whether school
 subjects should be matters of state
 legislation, the idea of making a
 serious study of peace in the
 schools seems excellent.

Wars do not just happen. Nor
 are they an inevitable result of
 unchangeable human nature. They
 have deep-rooted causes in eco-
 nomic, racial, religious, and
 national pride and the selfishness
 and ambition of rulers or classes.
 Some of the causes can be elimi-
 nated by cooperation among na-
 tions. Some can be eliminated
 only by changing ignorance and
 prejudice for enlightenment and
 good will.

Without doubt much of this
 work could be done in the public
 schools. But the success of such
 courses will depend on the qual-
 ity and spirit of the teaching. A
 history course that is devoted to
 dates, battles, and heroes, while
 neglecting the great social and
 economic forces that underlie a
 nation's actions and development,
 would not do much to prepare citi-
 zens for future responsibility.

That Body of Yours

By James W. Barton, M.D.

 the Copyright Act)

WEAK AND PAINFUL FEET

During examination of re-
 cruits for the war the number of
 cases of flat feet, hammer toe (no
 movement in the joint of the
 toe), bunions, and other foot de-
 fects was very large. While
 some of these cases were due to
 "pointed" and narrow shoes, a
 great many were due to "weak-
 ness" of the foot, either inheri-
 ted, or from standing too long in
 one position—motorists, police-
 men, clerks, or from infection of
 the joints of the foot from dis-
 eased teeth or tonsils.

Today, fortunately, shoes are
 sensibly built for both men and
 women, and there is less trouble
 with the toes, arches, and soles
 of the foot. There are, however,
 a great many foot sufferers who
 try various makes of shoes, get
 all kinds of foot "aids" and yet
 have no comfort with their feet.
 Now, as mentioned more than
 once before, feet are as impor-
 tant as the head in making a liv-
 ing and enjoying life; a pair of
 aching feet can take away all am-
 bition, make the individual less
 keen about getting about, and
 upset digestion and other body
 processes.

In discussing the treatment of
 foot disorders in the Journal of the
 American Medical Association,
 Dr. Dudley J. Morton (a
 name famous in the treatment of
 foot disorders) New York, states
 that the first thought is to re-
 move pain and establish good
 working ability in the foot. The
 three causes of pain and loss of
 good working ability are: (1)
 irritation, (2) deep injury or
 changes due to inflammation, and
 (3) disordered mechanics—where
 the bones of the foot are not
 being held together or up in their
 proper places by the ligaments
 (which hold the bones together),
 and the muscles which hold the
 bones up in their proper position.

The irritations are corns,
 calluses, warts, which should be
 removed by surgery, chemical
 preparations, or X-ray. Natural-
 ly the shoes should be properly
 fitted.

The "injured" foot due to
 wrong standing, to some infec-
 tive process—teeth, tonsils—or
 poor circulation, requires rest,
 removal of infection, and stimula-
 tion of the circulation by hot and
 cold applications, and light ex-
 ercise such as working the toes
 and trying to grasp a small object
 with the toes.

In cases of "disordered me-
 chanics"—flat forward arch or
 flat middle arch (the common
 flat foot), properly fitted insoles
 (adjusted from time to time) give
 splendid results under the super-
 vision of an orthopedic physician
 or surgeon.

Eight Health Bootlets
 Are you susceptible to colds?
 Do you worry about your heart?
 Are you overweight or under-
 weight? Does your food agree
 with you? Do you have to watch
 your calories, vitamins, etc.? Do
 you believe you have an ailment
 which medical tests do not re-
 veal. The following booklets by
 Dr. Barton may be obtained by
 sending ten cents for each one
 desired to The Bell Library, 247
 West 43rd street, New York, N.
 Y., mentioning the Kingston
 Daily Freeman: The Common
 Cold, Food Allergy, Neurosis,
 Eating Your Way To Health,
 Why Worry About Your Heart?
 Scourge (gonorrhea and syn-
 drome). Overweight and Under-
 weight.

By the way, sewer pipe manu-
 facturers refer to their products
 as "soil pipe".

EMPIRE FOR A LADY

SYNOPSIS: Savage Dyak
 tribes are on the wild look at
 war with the Malays on tropical
 Sumatra. A young English girl, be-
 hind the revolt, completing a plan
 of her dead father for Dyak free-
 dom. Rajah Mantusen thinks my
 uncle, James Clyde, controls the
 Dyaks and offers him the govern-
 ment of Balingong. While
 Christine tries to convince Clyde
 that this means unlimited oppor-
 tunity for wealth and power, I
 (Paul Thorne) go back about the
 Linking and wait.

Chapter 25

More Millions Than One

CLYDE was gone until late in the
 afternoon. I had no ballast to
 shift, of course. The crew loaded
 under their awning, forward, some
 of them half-heartedly playing
 cards, some getting in their routine
 grumblings; but mostly they just
 scratched and sweated, and specu-
 lated about what was going to
 happen. I talked with Blair under
 the other awning, after I wrote up
 the log, and tinkered with a sextant
 I was trying to make; but mostly
 I was wondering what Clyde was
 getting himself into.

Clyde came back aboard the
 Linkang as the sun was lowering.
 "Will she move out yet?"

"No."
 "I suppose we can kidnap her
 out of here, if it comes to that,"
 Clyde snorted. "Take her where?"

Pro And Con

"THIS girl," I cautioned him, "is
 getting you in deeper than
 that. This girl has held over a lot
 of her ideas from her father. And
 her father was a reformer. I can
 see that now—I can see it plain.
 He wanted to uplift these Dyaks.
 Bring in soap. Make 'em wash with
 it. Build a courthouse and lock 'em
 up in it. All that kind of vanilla.
 The plans that girl has would
 break the bank of England."

He stared at me blankly. "Don't
 talk so much." He went back to his
 figuring.

But when next he threw down
 his pencil he took a different tone.
 "The whole thing is unsound and
 unsafe," he said disgustedly. "I'll
 take my ship in where anybody
 will, and I'll take some awful
 chances to get a cargo. But this

Clyde's mind couldn't stay away from it.

Hold her how long? No use taking
 her away unless you can keep her
 away. Don't be a damned fool!

I got bandages up, soaked away
 the ones he had, and put on fresh.
 After he was bandaged he went
 below and presently brought up
 some old account books, and a
 batch of loose paper. He sat for a
 long time at his table under the
 awning, thumbing through the ac-
 counts, striking off a few notes,
 and making sketchy computations.
 "I suppose it might be done," he
 said at last, gloomily. "If I could
 legally get the raj, even in tribute
 to both Massin Ali and Mantusen,
 and get the thing organized on that
 kind of basis—it might pay out.
 There's more millions than one in
 the cargoes in there—if they could
 be got at."

"You couldn't hold the raj if
 you got it."

"Clean up And Run"
 "I MIGHT, there's no real reason
 it couldn't be held. We're well
 armed. Conceivably, we could pick
 out enough men to use the
 weapons. Balingong could be made
 smoky-hot for anybody to walk
 into."

"Tonalang, huh?"
 "I don't think much of the Tona-
 lang. At least, not in the sense
 that she does," he said. "But who's
 going to attack? Some hill-tribe
 raiders. Some Dyak pirates. If I
 couldn't whale the stuffings out of
 any bunch of Dyak pirates about
 I wouldn't be here now."

"I was trying to draw him out to
 see how far he came from his
 first conception. I saw what was
 bothering him. First, last, and at
 heart, James Clyde was a trader.
 A chance—even a bad and hopeless
 chance—at a tremendously rich
 monopoly, under his own military
 control, was something his mind
 couldn't stay away from."

"Even if Mantusen, as a last re-
 sort, pretends to sign over his raj,"
 I said, "Mantusen will repudiate.
 You know he will."
 "And lose his revenue? What
 for? If I didn't pay the revenue the
 title would default back to him,
 anyway. Any Sultan of Saremba
 ought to be tickled to death to have
 a white man running something
 for him, for once, instead of against
 him."

"And he ought to know what
 would happen," I argued. "He
 ought to know that the British, or

Will Clyde decide to take the
 chance, tomorrow?

MT. MARION

Mr. Marion, Feb. 14—The La-
 dies' Aid of the Plattekill Re-
 formed Church will hold an after-
 noon of quilting in the church
 hall on Thursday. At 5 o'clock
 a community supper will be
 served, to which everyone is in-
 vited.

On Saturday afternoon, Febru-
 ary 19, the young people of the
 community will meet in the church
 hall to form a Junior choir.
 The Willing Workers' Sunday
 evening class will meet on Tuesday
 evening, February 22, at the home
 of Mrs. George Brink. The hus-
 bands are invited to attend this
 meeting.

A party will be held in the
 church hall on February 25. There
 will be games, music and refresh-
 ments. The proceeds will go to
 defray the expense of the new
 floor in the hall.

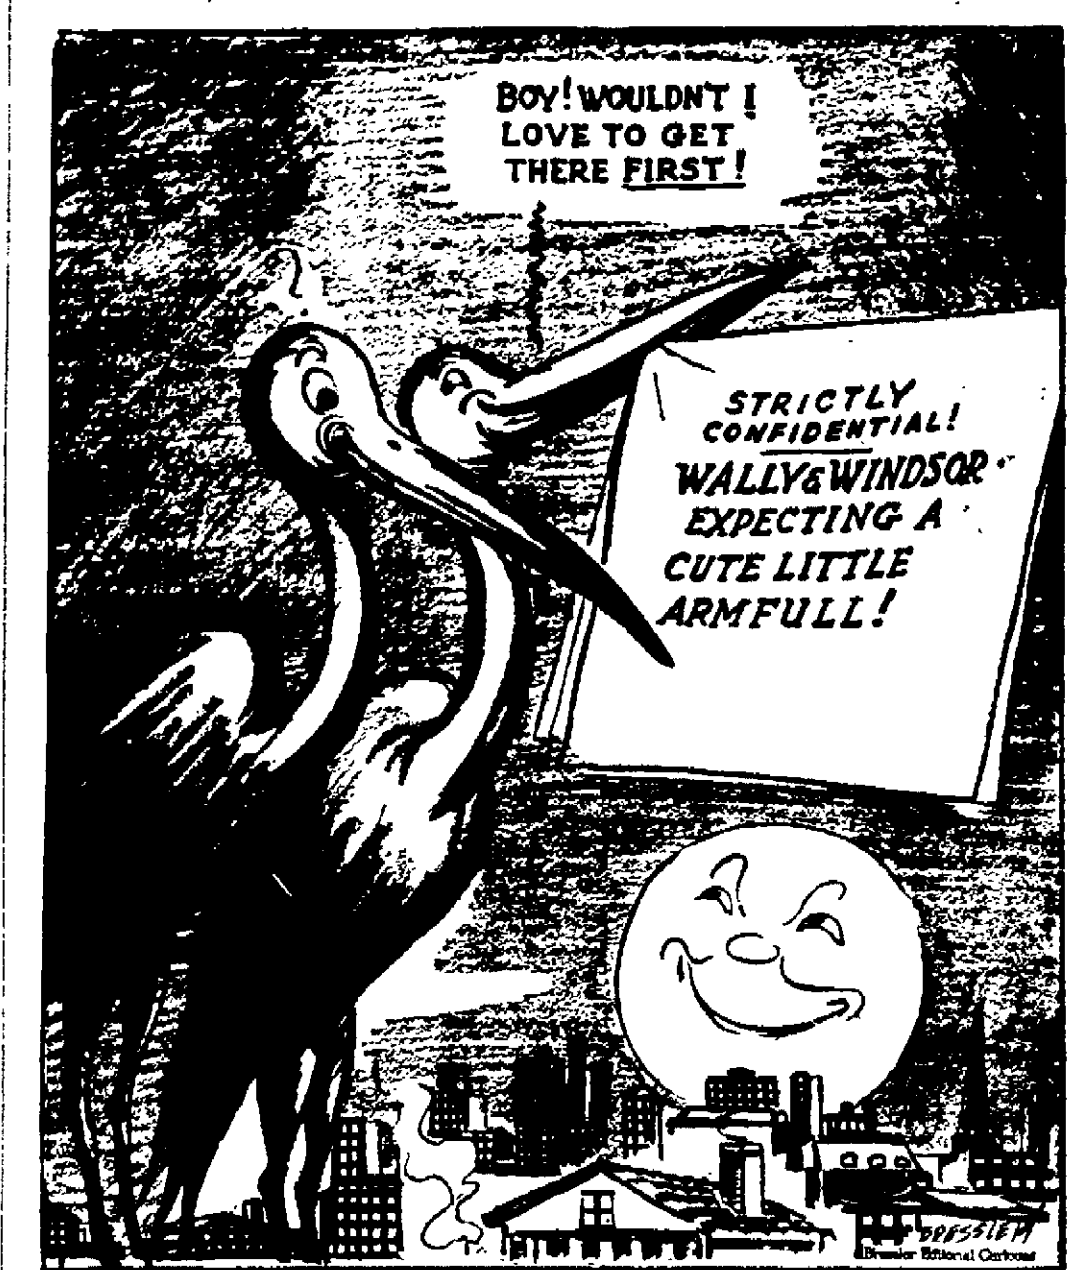

Mrs. George Gillson, who has
 been ill, has recovered.
 On Tuesday evening, Mr. Marion
 T. A. held his February meet-
 ing in the schoolhouse with 28

Low Birth Rate

Cooke City, Mont.—Mr. and
 Mrs. Robert Wasson announced
 the birth of a daughter—the first
 child born in this mountain min-
 ing village in 31 years.

NICE WINK, IF YOU CAN GET IT

 EXPECTING A
 CUTE LITTLE
 ARMFULL!

MODENA

Modena, Feb. 15—Local mem-
 bers of the Service and Hospital-
 ity Committee of the Plattekill
 Grange will assist in serving re-
 freshments at a card party to be
 conducted Tuesday evening,
 February 15. The Grangers will
 also conduct a social dance in the
 Grange Hall at Plattekill, Friday
 evening, February 18.

Plans are complete for the por-
 tion supper to be served Wednes-
 day evening, February 16, in the
 Hasbrouck Memorial Hall, under
 the direction of committee, Mrs.
 Emory Conklin, chairman; Mrs.
 Ralph Tucker, Mrs. Myron Shults,
 Mrs. Preston Paltridge. At the
 conclusion of the supper, entertain-
 ment in the form of "Ironing
 Board Minstrels" will be pre-
 sented.

The pinocle tournament be-
 tween the Modena Firemen and
 Modena Rod and Gun Club mon-
 day ended Thursday evening with
 the Sportsmen victorious. The
 complimentary supper served the
 winners will be given in the near
 future, date undecided.

Mrs. Nelson Hodges is visiting
 her sister, Mrs. Clifford Moller in
 Ohio.

Mrs. Maybeth Chambers is sub-
 stituting for Miss Edith Wright
 as teacher in Plattekill school,
 District No. 1.

Mrs. James Doyle of Albany
 was a visitor in town recently.

Mr. Morris Barley, Kingston,
 visited Mr. and Mrs. Lester
 Wager last week.

Abram Wager of this village
 accompanied Mrs. Harry Gerow
 and Mrs. Herman Osterhout, to
 Kingston Friday afternoon,
 where they visited Mrs.
 Matilda Trowbridge and son,
 Emile.

Mr. and Mrs. Henry Denton
 and daughter, Barbara, Mr. and
 Mrs. Emory Smith, Kingston,
 were guests of relatives here
 during the past week.

Mrs. and Mrs. Myron Shults
 spent Saturday in Albany.

Solomon Bernard, Poughkeepsie,
 visited here recently.

Local members of the Platte-
 kill Grange attended the current
 meeting at the Grange Hall
 Thursday evening, when a literary
 program was presented.

Mrs. Joseph E. Hasbrouck en-
 tertained the members of the
 Wednesday Club at her home re-
 cently.

Mrs. Preston Paltridge and
 Donald Paltridge were in New-
 burgh Saturday.

Solomon Bernard, Poughkeepsie,
 visited in town last week.

Mrs. Solbjor, Sr., who has been
 spending the past months in
 Brooklyn, arrived in town Sat-
 urday evening to accompany her
 son, the Rev. Philip Solbjor, and
 wife, to Minnesota.

Myron Reynolds, Campbell Hall,
 was a caller in town Sunday.
 Frank Miller was in Kingston
 Saturday evening.
 Mr. and Mrs. Roy DuBois en-
 tertained visitors at their home
 Sunday.

Presbyterians to Hear Dr. Ryder

The second in the series of
 weekly church family suppers and
 study hours of the congregation
 of the Rondout Presbyterian
 Church will be held on Thursday
 at 6 o'clock in the chapel.
 The speaker of the evening will be
 the Rev. Stephen W. Ryder, of
 the Flatbush Reformed Church.
 He was a missionary in Japan for
 16 years and will have an inter-
 esting message on that country.
 The women of the church will
 meet at 3 o'clock Thursday after-
 noon to sew, and at the close will
 remain for the church family sup-
 per.

HUDSON RIVER STEAMBOATS

These articles are written from the
 collection of George W. Murdock,
 veteran marine engineer.

No. 8—Ansonia.

The "Ansonia" was built for
 the New York-Derby, Conn., route
 in the year 1848, with George
 Deming, captain, Frederick Per-
 kins, pilot, and John M. White,
 chief engineer. She was 190 feet
 long with a 25 foot beam, and ran
 on Long Island Sound on the
 Derby route until 1860, when she
 was purchased by Brett & Mat-
 thews of Fishkill Landing, refitted,
 and renamed the "William Kent."
 Under the name of the "William
 Kent," this steamboat sailed the
 Hudson between Fishkill Landing
 and New York until 1861, when
 she was chartered by the govern-
 ment for the transportation of
 troops for the sum of \$700 per
 day. She was employed by the
 federal government for a period
 of 77 days and was then dis-
 charged from service.

About this time the govern-
 ment passed a law which said that
 unless a steamboat was entirely
 rebuilt, her name could not be
 changed. The purpose of this
 law was to protect the public who
 might think they were traveling
 on a new boat when in reality the
 only thing new would be the
 name. This law necessitated the
 name "Ansonia" being again em-
 blazoned on the sides of the
 "William Kent," and so under the
 original name of the "Ansonia" she
 plied the Delaware river and
 between Philadelphia and Cape May
 in the year 1862.

Following this sojourn at the
 Quaker City, the "Ansonia" was
 brought back to New York and
 placed in service on her former
 route between Fishkill Landing
 and the metropolis as a freight
 and passenger carrier under Cap-
 tain J. T. Brett. Following this
 she was sold to the Saugerties
 Steamboat Company and began
 regular trips between Saugerties
 and New York.

In the winter of 1892 the "An-
 sonia" was rebuilt at South
 Brooklyn, being lengthened to
 205 feet, and her name was
 changed to the "Ulster," with a
 tonnage rating of 730 gross tons
 or 580 net tons.

On November 11, 1897, the
 "Ulster" ran on the rocks at
 Butter Hill, just below Cornwall-
 on-Hudson about midnight, and

rested there with her stern sub-
 merged in the water and her bow
 on the rocks. She slipped off of
 the rocks and sunk in 20 feet of
 water. At the time of the acci-
 dent she was heavily loaded with
 freight and carried 15 passengers,
 all of whom were safely landed on
 shore.

A further account of this dis-
 aster tells of the "Ulster" leaving
 New York about seven o'clock
 in the evening on an exceedingly
 stormy night. When she reached
 Haverstraw Bay a wind storm
 arose and blew down the river at
 the rate of about 30 miles an
 hour. The pilot hugged the west
 shore of the river so as not to
 face the full force of the gale.
 The river was very rough and
 when opposite Butler Hill, the
 "Ulster" was blown on the rocky
 shore and a hole stove in her hull.
 Most of the passengers were in
 their berths at the time but they
 were quickly aroused and gotten
 off with a minimum of confusion.

The "Ulster" was raised and
 rebuilt and placed in service on
 her regular route, running until
 the fall of 1921, when she was
 taken up the Rondout creek to
 Hittobran's shipyard and was
 there rebuilt during the winter
 of 1922. The Vulcan Iron Works
 of Jersey City constructed a new
 boiler for the steam and her
 name was changed to the "Robert
 A. Snyder" in honor of the late
 Robert A. Snyder who was for
 many years the president and
 superintendent of the Saugerties
 and New York Steamboat Com-
 pany. She ran on the Saugerties
 line in conjunction with the
 steamboat "Ida."

On Friday, February 20, 1936,
 the "Robert A. Snyder" was
 crushed by the ice as she lay in
 the lower creek of Saugerties
 where she had been tied up with
 her sister ship, the "Ida," since
 the Saugerties Line ceased opera-
 tions some four years before. The
 water was shallow at that point
 and the remains of the once fa-
 mous boat now lies rotting to
 pieces, on the muddy bottom of
 the Saugerties Creek, a sight that
 will bring back many memories
 of the old days on the Hudson
 river to any of the old boatmen
 who were active at the time when
 the "Robert A. Snyder" was run-
 ning on her regular schedule.

TWENTY AND TEN YEARS AGO

Feb. 15, 1918.—Mrs. Robert
 Flemming died at her home on
 West Chestnut street, aged 76
 years.

A team of horses hitched to a
 sleigh drawing a load of coal
 broke through the ice in the Hud-
 son river at the mouth of the
 Rondout creek and were drowned
 before they could be gotten out.
 The sleigh remained on top of
 the ice. The driver, a man named
 Iahm, escaped unhurt.

Mayor Palmer Canfield presided
 as toastmaster at the Father
 and Son banquet held in the
 Wurts Street Baptist Church.

Feb. 15, 1928.—Rondout Social
 Yachtmen were planning to cele-
 brate its 60th anniversary on
 February 26 with a banquet.

William H. Short fell and sus-
 tained a head injury at his place
 of business on Hoffman street.

William R. Johnson appointed
 superintendent of the Saugerties
 water works.

Heavy rainfall flooded cellars,
 streets and sewers here.
 Thirty years ago the battleship
 Maine was blown up in Havana
 harbor.
 "Julius Caesar" presented by
 the Stratford Players brought
 here by the Federation of Wo-
 men's Clubs.

AGRICULTURE

Uncle Ab says the reason we
 speak of the lower animals is be-
 cause man did the rating.

Sweet potatoes are now being
 used to make starch for indus-
 trial purposes, particularly for the
 sizing of cotton cloth.

Bees sent in packages from the
 south are useful for starting new
 colonies and for uniting with
 weak colonies to bring them up to
 full strength.

On the Radio Day by Day

By C. E. BUTTERFIELD

Time is Eastern standard.

New York, Feb. 15 (AP).—The new WJZ-NBC Friday night show headlined by George Olsen's orchestra and Tim and Irene, definitely has been set for a premiere at 9 o'clock March 11. Graham McNamee will be the M. C.

When R. M. Jackson, recently appointed U. S. solicitor general, addresses the annual dinner of the New York Young Democratic Club February 24, CBS will broadcast. . . Paths to Prosperity on WJZ-NBC Sunday evening is to have Henry Haskell, editor of the Kansas City Star, and Wheeler MacMillan, editorial director of Country Home, in a discussion of "Is Foreign Trade a Path to Agricultural Prosperity?"

LISTENING TONIGHT (TUESDAY):

TALKS—WMAA-Interplay 9:45, Sen. Lynn J. Frazier on "Can We Stop the Drift Toward War?" WABC-CBS 10:45, Dr. Stanley Hugh on "America Is Like That."

WEAF-NBC—7:15, Vocal Varieties; 8, Johnny and Russ Morgan; 9, Vox Pop Poppers; 9:30, Ross, Butterworth and O'Keefe; 10:30, Jimmie Fidler on Hollywood; 12:30, Mike Riley Orchestra.

WABC-CBS—8, Edward G. Robinson Play; 8:30, Al Johnson Show; 9, Joe Cook with Al Pearce; 9:30, Jack Oakie College; 10, Benny Goodman Swing; 12, Red Norvo Orchestra.

WJZ-NBC—8, Serial, Those We Love; 8:59, Edgar Guest Program; 9, Helms Brinkley; 9:30, Alias Jimmy Valentine; 10:30, Elizabeth Lennan, Soprano; 12, Chuck Webb Orchestra.

WHAT TO EXPECT WEDNESDAY:

WEAF-NBC—12:45 p. m. Student Science Club; 2, Your Health Program; 4:30, Rush Hughes Comment; 6, America's Schools.

WABC-CBS—2:30, School of the Air; 3:15, Curtis Musical; 5:45, Hilltop House.

WJZ-NBC—12:30, Farm and Home Hour; 2:15, Let's Talk It Over; 3, Continental Varieties; 4:30, Parents-Teachers Program.

TUESDAY, FEB. 15

L'L ARNER

THE FACE IN THE BARROOM DOOR

By AL CAPT

HEM AND AMY

SHOKAN

Shokan, Feb. 14.—Mrs. Harold Elgnor, a former Shokan woman, is reported as recovering from her recent illness at her home in Pine Hill.

Raymond Cruthers and family, who have a summer home here, motored up from Ridgefield Park, N. J., and spent Sunday with Mrs. Margaret Rainey, an old friend of the Cruthers family.

A real estate transfer of February 14, 1933, was that of a farm property from Sarah and William Farrand to Arena and Will Elmendorf. The place, now a part of the reservation present, was located east of the present village of Shokan and was a section of the farm formerly owned by Levi Elmendorf at Olive. Twenty years ago a great storage plant was maintained by Winston & Company near the site of the old Elmendorf farm house.

The Russell Colgate family, who for several months have occupied Lewis Knapp's new house on the Bolivar hill road, are reported to be preparing to remove to California in the near future. The Colgates came to this section from Buffalo several years ago.

A meat pie supper will be served in the Reformed Church basement Wednesday evening, under the auspices of the Ladies' Aid

Dr. Stern Speaker At Comforter Club

Dr. S. Stern will be the featured speaker at the regular monthly meeting of the Reformed Church of the Comforter Men's Club which will be held tonight at the church hall on Wynkoop place.

All members are requested to attend and to bring a boy or friend with them. Dr. Stern will lecture on the prisons at Elmira and Napanock and will show slides of the various activities within the prison walls.

The business session will begin promptly at 8 o'clock with the entertainment period directly following.

NEW PALTZ NEWS

Village Briefs
New Palz, Feb. 15.—Mr. and Mrs. John Van Nostrand entertained relatives on Sunday.

The Misses Marjorie Edwards and Maria Reilly spent the week-end in Catskill.

Miss Blanche Guinac of Malabar-on-Hudson spent the week-end at her home in town.

Arnold Verduin, professor of history at the Normal School, will be a speaker at an open meeting of the Beacon Peace Council to be held in the St. Luke's Parish House, Beacon, on Monday evening, February 28. The topic of the talk will be "International Relations".

Mrs. Virgil DeWitt attended a meeting of the Committee of Southern Ulster Girl Scouts Monday evening at the home of Mrs. J. A. Manzella in Milton.

The Missionary Society of the Methodist Church will meet at the home of Mrs. Harry Geroy Friday afternoon, February 18. The study will be concerned with social conditions which prevail in Israel.

Miss Hazel E. Skidmore was the guest recently of Mrs. J. L. Dorsett at Katonah, a former roommate at the New Palz Normal School.

The Fellowship Club met in the Methodist Church parlor for its regular monthly meeting and supper on Monday night, February 14.

Herbert LeFevre, who has been in the Kingston Hospital for six weeks, is improving slowly.

Dick Thomson, who teaches at Hillburn, was a week-end guest at his home on South street.

Mr. and Mrs. Ralph Gardiner are recovering from their recent illness.

Mr. and Mrs. Chester Elliott

and family visited their son at Delhi on Sunday.

The Misses Inez Van Nostrand, Catherine Burleigh, Barbara Wiedler and Marion Schneider spent Sunday afternoon with Mrs. Daniel DeGraf in Plutarch.

Max Weidner spent Sunday with his family.

Mrs. Whitman spent last week in New York city and on Sunday entertained Mrs. Mabel A. Schneider and daughter, Doris.

Miss Dorothy Rose was a week-end guest of Miss Ruth Rodian at Plutarch.

Mr. and Mrs. John Palmer were Sunday afternoon guests of Mrs. Irene Roberts.

The Misses Elaine Suits and Doris Kilduff spent the week-end in New York city.

Miss Beatrice Costantino spent the week-end at her home at Lybrook, L. I.

Charlotte Dietz was a week-end guest of relatives at Spring Valley.

HOME FOR AGED LAWS DAMAGED BY CHILDREN

Considerable damage has been done to the lawn at the Home for the Aged in Ulster county by youths who ride bicycles over the lawn while the ground is soft from the spring thaws and also by children from the neighborhood who play upon the grounds.

Superintendent Parks, who is justly proud of the grounds seeks the cooperation of the offenders in keeping off the grounds at this season of the year. The matter has been taken up with the Board of Trustees of the Home and unless the practice is stopped police action will be taken against the offending youths. The grounds of the home on Washington avenue have been landscaped and damaged at this season of the year presents a serious problem later.

The Other Check
Denver—Mrs. Juliette Johannessen Divorced V. R. Johannessen, but there were no hard feelings.

Johannessen was a witness when his former wife took out a marriage license with W. L. Baker. Then he gave the bride away.

The largest of the Egyptian pyramids, at Gizeh, was originally 481 feet high and still measures 450 feet.

BRING OUT THE BEST OF YOUR FIGURE IN SMART MARIAN MARTIN FROCK

PATTERN 9634

To look your slimmest self is a very simple matter... just make up this Dress from Pattern 9634 and enjoy the knowledge that it really can "do things" for your figure. And it's so easy to make this dress fit perfectly, for every detail has been carefully planned to allow extra "room" where you need it and extra flattery, too. Take your choice of three types of sleeve. Let buttons brighten the yoke or trim the bodice below the soft bow. And let the skirt fit smoothly over your hips for best results. Choose a small monotone print in silk or synthetic and for warm weather wear, you'll enjoy flock dot voile or check batiste. Complete Marian Martin Diagrammed Sew Chart included.

Pattern 9634 may be ordered only in women's sizes 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3 1/2 yards 35 inch fabric.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for EACH MARIAN MARTIN pattern. Be sure to write plainly your SIZE, NAME, ADDRESS, and STYLE NUMBER.

GET INTO THE SPIRIT OF SPRING... put your wardrobe in shape without delay! WRITE TODAY for Marian Martin's NEW Book of SEWING PATTERNS. Thirty-two pages of stunning clothes to carry you smartly through every hour of the day... whether you go to an office, school or party or stay cozily at home. Reveal in the charm of these easy-to-sew patterns. ORDER NOW! PRICE OF BOOK FIFTEEN CENTS. PRICE OF PATTERN FIFTEEN CENTS. BOOK AND PATTERN TOGETHER ONLY TWENTY-FIVE CENTS.

Send your order to Kingston Daily Freeman, Pattern Department, 222 W. 18th St., New York, N. Y.

W. C. T. U. Meeting
The regular meeting of the Kingston Woman's Christian Temperance Union will be held Thursday, February 17, at 2:30 p. m. in the parlor of St. James Church.

The devotional period will be conducted by Mrs. T. H. Edmonston. This is to be a Frances E. Willard Memorial meeting and will be in charge of Mrs. George B. Mead.

The offering will be for the Willard Memorial fund. The treasurer, Mrs. S. M. Gillett, will be glad to receive the dues that are not yet paid. Members are urged to be present and a cordial welcome is extended to all others who are interested in the work of this organization.

Condit's Hose Meeting
Condit's Hose Company will hold a special meeting at the town on Delaware avenue on Thursday evening at 8 o'clock. All members are urged to attend as business of importance will be discussed.

To Meet Wednesday
The Lake Katrine Home Department will meet Wednesday, February 23, at the home of Mrs. William Dietz, 1 Hurdale street, at 2 p. m.

School for Church School Workers Organized Here

The Standard International Leadership School for Church School Workers has been organized again this year in Kingston. The school is open for all communities in the vicinity of Kingston. Classes will be held from 7:30 to 9:30 on the following Monday evenings: February 28, March 1, 11, 21, 25, at the Kingston High School.

The enrollment of students, assignment to classes, distribution of text books and the assignments for the first session of the school will be held in the Kingston High School Sunday, February 20, at 3 p. m. All credit students should attend this session.

The following courses will be offered:

Religious Drama and Pageantry. After a brief survey of the history and development of drama within the church, this course will consider such practical problems as how to choose and present a play, how to direct and act, how to secure effective lighting and costumes, what plays are available for various seasons of the year. This course will attempt to stimulate a more widespread use of one of the finest heritages of the church. Leader, the Rev. Russell S. Gaenzle.

The Life and Work of Paul. In this course, a study will be made of some of the more important events in the life of Paul. These will be studied and interpreted in order to understand more fully what Paul did for Christianity. The study will include such matters as Paul's early life, his conversion, his major difficulties on his missionary journeys, his meeting with the disciples in Jerusalem, and his arrest and trip to Rome. Leader, the Rev. Arthur G. Carroll.

How Jesus Developed Leaders. This course is particularly for those who are responsible for developing workers in the local church. Jesus worked not only for men, but also with them and through them He selected, called, and helped many to grow into places of leadership. How did He do it? What did he do for these persons and what did he let them do for themselves? What were his principles and methods? How do they help us in our task of de-

veloping leaders? Leader, the Rev. Clarence H. Brown.

The Earliest Stories of Jesus. Through a study of the Gospels of Matthew, Mark and Luke, this course aims to develop an understanding of the historical value of the earliest sources of our knowledge of the life of Jesus, and an understanding of their power in the Christian Church, today as well as long ago. Leader, the Rev. Alfred H. Coons.

The Child's Approach to Religion. This course helps leaders understand how daily happenings, trends of the times, atmosphere of the home, unusual events and crises, explanations and general conversation, religious practices, and activity in building a Christian social order, all contribute to children's growing religious ideas and behavior. The course also deals with the question of what religious ideas and attitudes are most helpful for children and how they may be developed. Leader, Dr. Roland G. Wall.

Youth and Worship. In this course, both adult and youth leaders in young people's groups may seek to discover the value of worship in the total development of young persons. Who shall lead worship? Where may suitable materials be found? How should materials be selected? How should others be led in services of worship? How may the experiences of a group be lifted to the level of worship? These and other similar questions are included in this course. Leader, the Rev. Arthur G. Oudemool.

The Board of School Administration. This course consists of chairman, George E. Kenny, the Rev. Chester C. Chilton, the Rev. J. Thoburn Legg, Frank Elmendorf, the Rev. Howard D. McGrath, Mrs. A. Noble Graham, Willis N. Ryder, and the Rev. Paul M. Young.

The committee chairman are: Curriculum, the Rev. Howard D. McGrath; Finance, Willis N. Ryder; Promotion, Russell Broughton; Local arrangements, the Rev. Paul M. Young.

The school officers are: Dean, the Rev. J. Thoburn Legg; registrar, Mrs. Harry Klothe; librarian and clerk, Henry Van Derzee.

What Legislature Is Doing Today

Albany, N. Y., Feb. 15 (AP)—Today in the Legislature

Both houses meet at 11 a. m. Assembly acts on proposal for ratification of federal child labor amendment and bill requiring state regulation and licensing of private detectives, detective agencies and their employees.

Senate considers bills of minor nature.

Turkey Dinner at Comforter Church

The Ladies' Aid Society of the Reformed Church of the Comforter will hold a turkey dinner at the church hall on Wynkoop place on Wednesday evening, February 16, beginning at 5 o'clock.

The dinner this year is under the capable direction of Mrs. William S. Wood, and tickets have been on sale for two weeks and can be purchased from any member of the organization or at the door of the hall on Wednesday evening.

1200 PEOPLE WANTED—At Auditorium Thurs Night at 8:30. —Adv.

What Congress Is Doing Today

(By The Associated Press)

Anti-Smoking — Southern senators resume filibuster (noon, E. S. T.).

House — Considers secondary bills (noon).

Naval — Rep. Flah (R-N. Y.) continues testimony on expansion program (10 a. m.).

Moratorium — House judiciary committee debates Frazier-Lemke moratorium extension (10:30 a. m.).

Relief — House appropriations committee discusses \$250,000,000 relief fund (10 a. m.).

No Wonder You Are Constipated!

What do you eat for breakfast? Coffee, toast, maybe some eggs? What do you eat for lunch and dinner? Bread, meat, potatoes? No wonder you're constipated—due to lack of "bulk." And "bulk" doesn't mean the amount you eat. It means the kind of food that forms a soft, bulky mass in the bowels. It's this mass that helps your bowels move.

The common sense thing to do about it is to eat a natural laxative food. Kellogg's All-Bran for breakfast will give you just the "bulk" you need. And it gives you, in addition, Nature's great intestinal-aid, vitamin B₁. Eat this crunchy flaked cereal every day, drink plenty of water, and life will be brighter for you! All-Bran is made by Kellogg in Battle Creek, sold by every grocer.

Valentine Parties At Two City Clubs

The regular programs of Lowell Club and Sorosis were dispensed with on Monday to celebrate St. Valentine's Day with appropriate honors.

Lowell Club members were entertained at a social afternoon at the home of Mrs. Walter Steiner on Main street. During the afternoon the members enjoyed a few games and a piano duet "American Fantasy" by Victor Herbert played by Mrs. A. H. Van Buren and Mrs. Clyde E. Wondol. The tea table, which was decorated with spring flowers, was presided over by Mrs. L. M. Quinley and Mrs. Woodruff. Mrs. Frances Dudenek also assisted the hostess.

The regular meetings will be resumed next week at the home of Mrs. Fred Snyder on Clinton avenue.

Sorosis had a Valentine dinner party at the home of Mrs. Ward Brigham on Lindenman avenue. The members found their place at tables decorated for the occasion, by making Valentine's, and enjoyed a dinner, the menu of which was also in keeping with the day.

Following the dinner the 20 members present enjoyed a program of readings and games. The story of St. Valentine was given by Mrs. Cora E. Drake and Mrs. Grover C. Lasher, and "Cupid and Psyche" was recited by Mrs. Lucinda Merritt. Valentine's containing original rhymes, by Mrs. Edward C. DeWitt, were distributed and read by each member. A treasure hunt for hearts and a heart piercing game concluded the evening's program with Mrs. William McVey winning the prize for the treasure hunt.

This Valentine celebration was arranged by Mrs. C. L. Dumm, Mrs. Conrad J. Hirschman and Miss Lucinda Merritt.

Dawes-Callahan

Marlborough, Feb. 15.—On Sunday afternoon Miss Katherine Theresa Callahan, daughter of Mrs. Katherine Callahan, and the late Joseph Callahan, of Newburgh, became the bride of Louis A. Dawes, son of David A. Dawes, of West Marlborough. The ceremony was performed in St. Mary's Church, Newburgh, by the Rev. Thomas Burke. The bride was attended by her sister, Miss Rose Callahan, and David Dawes, Jr., acted as his brother's best man. After the ceremony a reception was held in the bride's home. Mr. and Mrs. Dawes left for a trip to New York and Washington, D. C. Mrs. Dawes is a graduate and honor student of St. Mary's parochial school and St. Mary's Academy, Newburgh. Mr. Dawes is a graduate of Marlborough High School, and is associated with his father in farming.

Birthday Surprise

Kripplensburgh, Feb. 15.—Barton Van Aken was given a birthday surprise on February 1 in honor of his 18th birthday. Those attending were: Mrs. Van Den Burgh, Alice and Julian, Dorothy Messner, Mrs. Joseph Blank and Gertrude, Mrs. Jacob Hornbeck, Dorothy, Simon and Lincoln, Elton Roscoe, Mr. and Mrs. Christiana, Virginia, Donald and Jean, Theresa Davis, Sherman Lyons, Milford Van Damack, Mrs. George Lounsbury and Florence Lounsbury, Fred and Robert Hough, Mr. and Mrs. LeRoy Osterhondt, Mr. and Mrs. Howard Van Aken and Katherine and Lewis Van Aken.

Celebrated Golden Wedding

Mr. and Mrs. Orville Winchell celebrated their golden wedding anniversary on Sunday at their home on South Manor avenue. Those present were Mr. and Mrs. George W. Stekler and daughter, Catherine, and Mr. and Mrs. Catherine Bowen, of Ashokan, and Mr. and Mrs. Harry S. Winchell and children, June, Bruce and Gene, and Mrs. Irene J. Stevens, of this city.

Holy Cross Social Enjoyed

The social held in the parish hall of the Church of the Holy Cross last Thursday evening was enjoyed by both young and old. Bro. Campbell, of West Park, gave a very interesting talk on "Liberia," and a short program was given by some of the members of the church. Participating in the program were Geraldine, Beatrice, Shirley, and Margaret Gardner, and Donald Sills. Music for dancing was furnished by the Gardner brothers. Refreshments were served by the Guild of St. Anne.

College Book Group to Meet

The Book Group of the College Women's Club will meet this evening at 8 o'clock at the home of Mrs. Harry Halverson, 156 South Manor avenue.

Little Citizens

Lorraine Alden Sisson, who was born on August 7, 1924, is the daughter of Mr. and Mrs. Robert L. Sisson of 108 Emerson street. Mr. Sisson is the General Secretary of the Kingston Y. M. C. A.

SAWKILL

Sawkill, Feb. 14.—Masses Sunday, February 20.—Sawkill, 10 a. m. Ruby, 5 a. m. Catechism class, Saturday, 2 p. m. C. Y. O., 3 p. m. Saturday.

Members of the Confraternity are now holding weekly rehearsals for a show shortly after Easter.

The younger group members of the C. Y. O. are also planning an entertainment and all hands in the parish are helping in preparation for another Old Times Night in Kingston on Saturday evening, March 19, when the second annual floor show and reception will be held to raise funds for the reclamation of St. Ann's Cemetery in Sawkill.

The Holy Name Society at a recent smoker planned to make the event one of the greatest in parish history.

The Rosary Society will have a social time in St. Ann's Hall on Wednesday, February 16. The public is invited. Refreshments will be served.

The reconditioning of St. Ann's Cemetery will be a big job, but with the assistance of all who

have loved ones buried there the Rev. J. W. Hughes, who is in charge of the parish, is confident he will be able to make it one of the most attractive cemeteries in the archdiocese.

An old fashioned dance will be held Saturday, February 19, at St. Ann's Hall. Public is invited, music by Dietz.

At a meeting call on Saturday night, February 12, the following committees were appointed for the event to be held on March 19: Entertainment, chairman, Ed. Leahy; assistant chairman, Ed. Stauble; John Young, J. Canty, Miss Mary Young, Mrs. Callahan, Ed. Sheen, William Heilly; book committee, Mrs. L. Bonstedt; mailing committee, Mrs. E. Leahy, Mrs. A. Malone, Miss E. Sheen, Miss A. Spoonhauser, Mrs. J. Young; finance committee, D. Sheen, Ruby; Mrs. K. Hulsar, Sawkill.

A good many people wish there was as much interest in making their cat as there has been in forcing food on the Memphis cat, a man who didn't want it.

'MODES of the MOMENT

Roadmap Prints

A roadmap, stretching from Niagara to Miami and splashed with waterfalls, skyscrapers, palm trees and sombreroes, patterns this colorful cotton street rock. It is made of blue-green sheeting with the printed pattern carried out in pimento-red, white and brown.

Child Guidance

A Little Rough Treatment Called Good For A Child

By LYDIA GRAY SHAW
AP Feature Service Writer

If Bobby is an A student at school, always comes home to meals on time, and goes to bed willingly, his parents may hold him up as a model, but it doesn't necessarily indicate Bobby will become a college professor—or even a bank president.

If he had a few difficulties while he was growing up Bobby probably would be better prepared for life. Soon enough he'll be out in the cold, hard world, where no one is going to soften the way for him.

Fall and Go Boom
That's the opinion of Dr. Thomas F. Bamford, Jr., psychiatrist in charge of work with problem children in the Fordham University department of psychology.

Dr. Bamford says: "The first time Bobby falls down, it will really be a case of 'fall down and go boom.' He won't be able to pick himself up. When he's completely shot emotionally, he'll look to a psychiatrist for aid. When his childhood should already have prepared him to shrug off hard knocks."

Dr. Bamford may sound pretty hard-boiled, but he's watched plenty of children of all ages, and thinks that a few failures in early life are good for the average youngster.

When he says "failures" he means things like these:

Falling down while learning to walk and not being consoled or helped to his feet.

Kicked Around
Getting knocked about in football games and tussles—good for him to take it, says Dr. Bamford.

School difficulties—reporting to the principal now and again is good for him. Criticism from higher up will come eventually, says our psychiatrist.

In fact, Dr. Bamford makes parents of model children feel awfully nervous about their offspring.

"The child who always does as he's told, he asserts, 'is worse than the child who breaks a few toys and has a couple of playmates now and then."

"Why is he worse? Because he always escapes the attention of guidance authorities and yet may be as disturbed psychologically as his rambunctious friends. Model children don't disturb their parents. Disobedient children do. But

better for parents to think more about their children, even though they may be doing the wrong thing."

"To Please Mother"
In other words, obedience, as well as the other virtues of childhood, can be over-emphasized. Dr. Bamford thinks a child should learn to do the thing because he gets pleasure out of doing it right, not because someone tells him to do it. But doing it wrong is part of learning to do it right.

Dr. Bamford's biggest worry is the child who obeys to please his mother.

He thinks the mother who is constantly saying: "Now hang up your coat to please mother. Don't play with that rough little boy across the street, to please mother. . . ." should be outlawed from society.

Home Institute

BUDGET PLAN ADDS TO INCOME
WITHOUT LOTS OF BOOKKEEPING

A Day With Mrs. Dodd—Who Budgets

Once the money problem had the Dodds licked. In ten years of marriage they hadn't been able to take one step toward the home of their dreams.

Now, thanks to their budget plan, the Dodds have the money problem licked. Does that mean an endless haggling over dimes? Come let's spend a day with Mrs. Dodd and see how simple budgeting really is.

First—to market! Mrs. Dodd keeps her food bill to about 25 per cent of income, which is about right for a family of four.

What does she do when a price shoots up? She has substitutes on her grocery list for the foods which vary frequently in price. If yesterday's 39c chops are today's 49c delicacy, she quickly orders her substitute—macaroni and cheese, perhaps.

Home again, Mrs. Dodd plans spring clothes. With Junior and Sis taking more of the family clothes budget, Mrs. Dodd decides to repair last season's clothes and wear them until the fashions are settled. She'll get better buys—and look smarter, too.

Next, a whirr of the doorbell hails a rug back from the cleaners. Mrs. Dodd pays the driver

from her "house-keep" or "operating fund." She spaces such expenses so she never has an accumulation of odd jobs to upset her budget.

Do the Dodds have fun? Of course. Mrs. Dodd takes a look at her "recreation fund." Though she's going to a concert this week she has enough left over to entertain the Smiths at dessert bridge. That costs only a little more than her regular dessert.

With our 40-page booklet, HOW TO BUDGET YOUR INCOME, you can easily plan a budget of your own, put safety brakes on leaks, and get what you want from life.

An Exclusive Filet Crochet Pattern

Household Arts by Alice Brooks

Companion Squares of Filet Crochet Also Form Spread or Scarf

PATTERN 6044

Rare beauty is yours in this lovely filet lace—and a great deal more, too! You'll quickly work up these dainty companion squares into exquisite cloths, spreads, scarves, and pillows! See how the distinctive rhythmic leaf design is set off by delicate open mesh! Crocheted in mercerized string they are 10 inches—smaller in finer cotton. Pattern 6044 contains instructions and charts for making the squares; materials needed; illustration of the squares and of stitches.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to the Kingston Daily Freeman, Household Arts Dept., 259 W. 14th street, New York, N. Y. Be sure to write plainly your NAME, ADDRESS and PATTERN NUMBER.

MENUS OF THE DAY

By MRS. ALEXANDER GEORGE

Salad Recipes

(Requests By Readers)

Black Cherry Salad Supreme

1 package raspberry-flavored gelatin
1 1/2 cups boiling water
1/2 cup cherry juice
1 cup seeded black cherries
1/4 cup shredded almonds
1/2 cup cottage cheese

Shape cheese into half-inch balls. Chill. Dissolve gelatin in water. Add juice and pour a one-inch layer into a shallow mold. Chill until thick. Insert cottage cheese balls and cherries. Sprinkle with almonds. Chill until firm and then cover with rest of gelatin mixture. Chill until firm and unmold on lettuce. Top with salad dressing.

Stuffed Avocados

2 teaspoons granulated gelatin
1 tablespoon cold water
1/2 cup diced celery
1/4 cup chopped onion
1/4 teaspoon salt
1 tablespoon lemon juice
1/2 cup cottage cheese
1/4 cup chopped pineapple
4 ripe avocados
2 tablespoons French dressing

Soak gelatin in water for five minutes. Dissolve over boiling water. Add to celery, olives, salt, lemon juice, and pineapple. Chill. Cut avocados into halves. Discard seeds. Sprinkle with dressing and chill for one hour. Stuff with cheese mixture and press together again. Wrap in waxed paper. Chill for one hour or longer. Cut into slices and serve two stuffed slices for each portion. Put on lettuce. Add French dressing.

Tomato-Cheese Salad
1 tablespoon granulated gelatin
1/2 cup cold water
1 1/2 cups condensed tomato soup, hot
1/2 cup chopped celery
1/4 cup chopped onion
1/4 teaspoon salt
1/2 cup cottage cheese
1/4 cup whipped cream

Soak gelatin in water for five minutes. Dissolve in soup. Cool and let stiffen slightly. Fold in rest of ingredients. Pour into a mold. Chill until stiff. Unmold. Place on lettuce. Add more mayonnaise mixed with whipped cream.

Platypus, Strange Animal; Lays One to Three Eggs
The duck-billed, web-footed platypus, a mammal that lays eggs, whose scientific name is Ornithorhynchus anatinus Shaw, is a native of eastern Australia and Tasmania. It lives in rivers and digs burrows in the banks. It feeds on shellfish, water insects and their larvae, and other small aquatic creatures which it procures from the mud of the river bottoms. It is especially adapted to this mode of life by the duckbill-like development of its mouth, and by its broadly webbed feet.

Its burrows are from 20 to 30 feet long, and have a nest chamber at the end or at the side of the tunnel, states Colin C. Sanborn, curator of mammals, Field Museum of Natural History. In the nest, lined with grass and reeds, the female lays from one to three eggs, which she alone incubates. The young are not nursed for some days after hatching, but are held against the mother's abdomen by her tail.

The platypus was first described from a single specimen in 1799, but it was not until more specimens were secured that the existence of such a curious mammal was fully credited.

Pollination Agents
Pollination is carried on by various insects, by the wind, by water, by birds, etc. Insect pollination is the most common type in flowering plants, those with showy petals or sepals, with nectar or a distinct odor. Gager's "The Plant World" mentions it as a very significant fact that there were no flowers with showy petals on the earth until the geological age in which insects first appeared, and then these flowers developed. Practically all the confers, including pines, hemlocks, etc., and all grasses are wind-pollinated. Bees are most important to a good crop of orchard fruits and to clover, an authority estimating that honeybees are worth fifty or more times as much for their part in fertilizing blossoms as they are for their honey.

Insects and Flowers
Some flowers are sweet-smelling at night and scentless during the day. When this is the case one can be sure that the insects which fertilize the flowers are nocturnal in habit. Flowers which are sweet-smelling during the day are fertilized by insects which fly during the day. Some flowers close up during the day and open during the night; others do the opposite. Insects and flowers are mutual friends, but both of them have their enemies. There are insects which prey upon flowers, and there are flowers—or plants which use their flowers—that prey upon insects.

Romero's A Satirist
Ten years ago Cesar Romero's tall Latin type would have bracketed him as a Great Lover, or else. . . Great Lovers of the Valentino school are out of style now. . . But Romero is right in style. . . because he kids the Grand Passion, he survives as a comedian. . . In "Happy Landings" he is so obviously and willingly pushed around by the director that he scores a peculiar hit of his own!

Polymorphous, Strange Animal; Lays One to Three Eggs
The duck-billed, web-footed platypus, a mammal that lays eggs, whose scientific name is Ornithorhynchus anatinus Shaw, is a native of eastern Australia and Tasmania. It lives in rivers and digs burrows in the banks. It feeds on shellfish, water insects and their larvae, and other small aquatic creatures which it procures from the mud of the river bottoms. FINANCIAL AND COMMERCIAL

Securities Gain,
Trading is Light

In light trading yesterday, total volume of shares being traded was 400,000, all classes of securities maintained a gain throughout the day. The industrials were up 1.02 points, closing at 125.37 in the Dow-Jones averages; the rails gained 0.26, to 29.16; utilities were up 0.26, to 130.09. Government bonds inclined higher, corporates eased. In London Industrials and rails set new low averages for the year as reports for January showed imports largely exceeding exports and re-exports.

Wheat was irregular; cotton closed firm in anticipation of passage of the farm bill; other leading commodities were steady to strong.

Secretary Morgenthau announced yesterday that the Treasury would relax its gold sterilization policy. Incoming gold, whether imported or newly mined, will be allowed to enter the credit base up to \$100,000,000 every three months. More is seen as slightly inflationary; in high administrative quarters it is the presumed effect is described as "not deflationary." The extent to which the new policy will result in credit expansion depends upon gold imports and domestic production.

There is interest in steel prices for the second quarter, which may be announced in a week or ten days. The situation is said to be still "up in the air" as pressure continues from consumers for additional price cuts in line with the \$4 reduction made on cold reduced oil sheets recently. Some interests are said to be strongly in favor of reaffirming present quotations for the present quarter and urge that last week's reduction of \$4 be cut into half.

Meanwhile the Iron and Steel Institute schedules production this week at 31 per cent of capacity, which compares with 30.7 per cent last week. Companies in the Chicago area are expected to operate in the third current quarter.

Goodyear Tire & Rubber, which last year paid four dividends of 50 cents and a 50-cent extra, has declared a dividend of 25 cents on common, while Goodyear's sales last year showed a gain of 16 per cent over 1936, net profit dropped 33 per cent as result of a write-down of \$10,312,743 in raw material inventories, commitments, and rubber and cotton content of in-process and finished products.

The apparent injustice of government competition with private utilities would appear to have been brought out in the case of the Pacific Gas & Electric Co., which yesterday was denied a Supreme Court review of a Federal Appeals Court ruling that imposition of taxes on it to pay for a competing power system is illegal. The private utility contended that it would be liable for \$1,000,000 of the \$12,000,000 plus interest to be spent by the Sacramento Municipality Utility District in California in building a competing system. The utility's property represents 6 1/2 per cent of the total assessed valuation of the district.

Two "Dollar Days"
Planned for City

Wednesday and Thursday are Dollar Days in Kingston, and the merchants of the city are making many unusual offerings in the line of bargains for the shoppers.

COMMERCIAL TRAVELERS
PLAN BIG TIME FEB. 23

Members of Kingston Council, 305, United Commercial Travelers, are making great plans for their annual class day, banquet and dance, to be held at the Governor Clinton Hotel Friday night, February 25. The banquet and dance will be held at 7 p. m. Music will be by Al Mackey's orchestra. Honored guests of the evening will be William J. Lees of Auburn, past grand counselor; Frank N. Roberts of Brooklyn, grand treasurer; Harry Johnson of Middletown, grand secretary and George H. Merle of Canastota, past grand counselor.

R. T. Southwick is chairman and William C. Dutton, secretary, and they are anxious to have those desiring to make reservations, do so at the earliest possible moment. Not only members of Kingston Council but all Commercial Travelers and their friends are invited to join the festivities.

New York, Feb. 15 (AP)—The stock market chose the downward path today after rallying efforts failed to hold.

Toward the final hour losses ranged from fractions to a point or more, with volume a little better than in recent sessions but still far under what Wall Street would like to see.

Transfers were at the rate of 550,000 shares. Steels led the swings, both up and down. Coppers, aircrafts, and heavy industry shares failed to hold advantages gained at the opening. A break in grain prices in Chicago pushed farm implement issues lower.

Commodities were mixed. Foreign markets were irregular with American security issues tending a little higher. Bonds improved a trifle, headed by U. S. government obligations.

Stocks fractions to a point or more lower—many of them after morning advances—Included U. S. Steel, Bethlehem, Chrysler, Anaconda, Kennecott, International Harvester, Deere, American Telephone, Allied Chemical, du Pont, Standard Oil of New Jersey and New York Central.

Quotations by Parker, McElroy & Co., members N. Y. Stock Exchange, 120 Broadway, New York City; branch office, 252 Wall Street.

The Twelve Caesars

The 12 Caesars were Julius Caesar and the 11 emperors following him, most of whom were from his family. Nerva was chosen by the senate, and was the first to select a successor without regard to family. Following are the names and dates of the reigns of the 12: Julius Caesar, 44 B. C.; Augustus, 31 B. C. to 14 A. D.; Tiberius, 14 to 37; Caligula, 37 to 41; Claudius, 41 to 54; Nero, 54 to 68; Galba, 68 to 69; Otho, 69; Vitellius, 69; Vespasian, 69 to 79; Titus, 79 to 81; Domitian, 81 to 96. The title Caesar was given to all of the Roman emperors until the time of Hadrian, after whom Caesar was the title of the heir of the throne, and the title of the emperor was Augustus.

A Classic Example

The Hermitage, beautiful and historic home of Andrew Jackson, lies only a few minutes from the heart of Nashville, Tenn. The building is a classic example of the best architecture of its day and is preserved in every detail almost precisely as it was when Old Hickory passed away. The site of The Hermitage presents a scene of sylvan loveliness and quietude reminiscent of days gone by. The home contains relics and mementos of Jackson's tempestuously busy and aggressive life. The rooms are furnished with the pieces which Jackson and his family actually used, and the grand stairway in the lower hall ranks as one of the most beautiful.

"Twice as Cold"

Such an expression as "twice as cold" has no meaning because there is no definite point of the thermometer from which we reckon cold. As zero is 32 degrees Fahrenheit below freezing point, you could say that 32 degrees below zero is twice as many degrees below freezing point as zero is below that point. Similarly the expression "twice as warm" is meaningless unless you refer it to a definite temperature; if it should be 25 degrees Fahrenheit on one day and 50 degrees Fahrenheit the next day, you could say that on the second day the temperature was twice as many degrees above zero as on the previous day.

Early Newspaper "Ads"

in Special Supplement

In the fourteenth century editors considered "ads" beneath their dignity; they thought that advertisements ought to be published apart from news. And so, in June, 1688, we find the first Advertisement Supplement announced, writes a correspondent in London Answers Magazine.

The paper concerned was the London Gazette, and here is the editor's dignified pronouncement: "This is to notify, once for all, that we will not charge the Gazette with Advertisements, unless they be matter of State; but that a Paper of Advertisements will be forthwith printed apart, and recommended to the Publick by another hand."

The first advertisement to appear in England was that of a book called "The Divine Right of Church Government." It appeared in an issue of a weekly newspaper which bore the following clumsy title: "Perfect Occurrences of Every Day, Journal in Parliament, and Other Moderate Intelligence, Mo. 13, from Fryday, March the 26th, to Fryday, April the 2, 1647." What a mouthful!

Advertising announcements have been discovered on the walls at Pompeii, the pleasure city that was swallowed up by lava from a volcano. One of these announces the opening of some baths, on which occasion visitors are promised a slaughter of wild animals, to be viewed in comfort under an awning.

In Ancient Rome advertising was carried out by means of criers, who announced forthcoming sales and lost property. They also advertised with posters; these were called libelli, and the information they contained included news of absconding debtors.

Grenada's Riches Found

in Its Nutmegs, Fruits

To those who know of nutmeg only as a fragrant dust decorating the top of a milk punch or an egg-nog the growing of nutmegs, the principal crop of Grenada. Windward islands, will prove a source of wonderment and surprise. The growth of this staple "spice" may be observed by visitors to the island. The full fruit, hanging pendant from its mother twigs, looks like smooth, salmon-tinted nectarines or peaches.

Grenada's riches are found in its nutmeg groves and fruit orchards. On every hand are the dense, glossy-green leaves of the nutmeg tree, the purple and coppery-green of cacao and the deep-tinted verdure of orange, lime and mango trees.

When fully ripe the nutmeg fruit splits open and discloses a glossy, rich brown oval seed, covered with a lacelike network of gorgeous crimson. This is the nutmeg with its coating of scarlet mace, but the portion used—the aromatic, solid spicy "nut"—is within the glossy outer shell, beneath the mace.

Onions and Garlic Found

Useful to Fight Disease

Albany.—Dr. Daniel V. O'Leary, Albany health commissioner, contends that onions and garlic are useful in combating infectious diseases because of their immunity to bacterial attack.

Horseshoe of 1847

Found in Oak Tree

Del Monte, Calif.—A horseshoe believed to be more than 90 years old was found imbedded in the heart of an ancient oak tree on the Del Monte golf course.

One for a Dollar.

In the W. T. Grant Dollar Days ad appearing in last evening's Freeman, it was stated that \$1.49 Pottery Lamps would sell at 2 for \$1.00. This was in error. It should have read \$1.49 Pottery Lamps, one for \$1.00.

OIL TANKERS TO BE
BUILT FOR WAR USEU. S. to Pay for Arming
Ships Privately Owned.

Washington.—The United States has begun to move forward toward its goal of armed peace by joining hands with private enterprise, without congressional sanction or action, to meet urgent navy requirements.

Marking a new policy in the national defense program, the Standard Oil Company of New Jersey has signed an agreement with the maritime commission to construct twelve high-speed tankers which could be transformed overnight into auxiliary fighting vessels.

During times of peace, the vessels would go about their own business, transporting oil. But, in the event of war, the ships literally would be thrown into high gear, guns and navy searchlights would be mounted and the cruising range extended.

United States Pays for Arming

Standard Oil—and other oil companies probably will take part in the program—has agreed to pay for the construction and maintenance of the tankers, with the maritime commission standing the cost of the auxiliary equipment.

Joseph P. Kennedy, chairman of the commission, announced the company had awarded contracts totaling \$37,558,004 for the twelve tankers to four shipbuilding concerns, each to build three.

The latest agreement, plus construction of twelve high-speed cargo vessels, for which bids will be opened February 1, and a modern safety liner to replace the Leviathan in the North Atlantic, will bring to twenty-five the number of ships now a part of the commission's ambitious building program.

Jobs for 10,000.

Cost of the ships was estimated between \$80,000,000 and \$75,000,000, unofficially and would give employment to an estimated 10,000 shipyard workers.

Kennedy pointed out that the agreement did not represent a subsidy to Standard Oil but constituted a step in national defense. The commission's share in the cost of construction will be \$10,563,000.

The ships will have a speed of 16 1/2 knots fully loaded compared with 12 1/2 knots of the ordinary tanker. They will have a tonnage of 16,300 tons dead weight, a length of 525 feet and a cargo capacity of 150,000 barrels.

Modern in every detail, the horsepower will be stepped up to 12,800, thus being able to develop 300 per cent more power than the ordinary commercial tankers.

Child Marriages Traced

to Three Main Factors

Chicago.—Juvenile marriage depends on climate, delinquency and disposition, the Society for Research in Child Development has found in a survey.

In a monograph, psychologists reported that regions having an annual temperature of 60 to 75 degrees induce 17.7 per cent of marriages in the teens. A colder climate—35 to 45 degrees—brings the rate down to 7.5 per cent. Warm climates bring earlier maturity, the psychologists explained.

Only 2 per cent of socially superior groups of women marry under twenty, it was said.

The possibility of a girl in the country marrying younger than her city cousin is also much greater, the pamphlet says. This is because of the relatively few women known to "the boy down the road," which makes his choice limited and therefore quicker.

Women citizens of native parentage have a 13.3 per cent average of "younger generation" weddings, against 6.3 for those of foreign parentage.

Onions and Garlic Found

Useful to Fight Disease

Albany.—Dr. Daniel V. O'Leary, Albany health commissioner, contends that onions and garlic are useful in combating infectious diseases because of their immunity to bacterial attack.

"The chemicals in onions and garlic," he asserted, "which bring tears to the eyes, are now found to have germ-killing powers."

The chemicals have been isolated by Dr. Richard E. Vollrath, professor of physics, and Dr. Carl C. Lindgren, chairman of the bacteriological department of the University of Southern California, Dr. O'Leary said.

Horseshoe of 1847

Found in Oak Tree

Del Monte, Calif.—A horseshoe believed to be more than 90 years old was found imbedded in the heart of an ancient oak tree on the Del Monte golf course.

One for a Dollar.

In the W. T. Grant Dollar Days ad appearing in last evening's Freeman, it was stated that \$1.49 Pottery Lamps would sell at 2 for \$1.00. This was in error. It should have read \$1.49 Pottery Lamps, one for \$1.00.

Want High School
Grads for Police

A proposal that the educational requirements for appointees to the Poughkeepsie police department be raised to make it mandatory that all applicants for appointments to any position in the department must be graduates of high school, is included in the annual report of the Board of police commissioners of the Bridge City.

The standard of qualifications now makes it necessary for all applicants for the appointment of patrolmen or chauffeurs to have at least two years of high school education or its equivalent. The commissioners in their annual report said:

"Police work is becoming more generally recognized each year as a real special form of work and many very excellent young men are aspiring to positions in the department. There is no reason whatever why we should not have the best."

Frederick Snyder

To Address Lodge

Frederick Snyder, world traveler and lecturer of this city, will deliver an address on current events at the meeting of Roundout Lodge, No. 343, P. & A. M., on Monday evening, February 21.

This meeting is open to all Master Masons, and it is expected that there will be a large attendance as Mr. Snyder always has a message worth hearing. Following the address a social hour will be enjoyed and refreshments served.

Warner Proposes

More Troops

(Continued from Page One)

Warner also recommended that state police be equipped with portable radio transmitters of about 250 watts permitting the mobile units to furnish radio signals in connection with fire, floods, prison riots and other emergencies.

THE REV. SAMUEL ARDRON

DIES IN POUGHKEEPSIE

The Rev. Samuel Ardron, 81, a retired supply preacher of the New York Conference of the Methodist Church, died Sunday night, after a long illness, in the Windsor Hotel, Poughkeepsie, where he had made his home for some time. Mr. Ardron was born in the west, came to Poughkeepsie and conducted a photography studio for a number of years and then became a member of the New York Conference in 1905, being appointed supply preacher of the Claverack church. Among pulpits in Ulster and Sullivan counties which he had supplied were: Kenosha Lake, 1909; Bridgeville, 1910; Grahamsville, 1911-12; Catsville, 1917; Kerhonkson, 1918-19; Esopus, 1920; South Rondout, 1927-28. He retired in 1930. He is survived by one son, his wife having died in 1926. Funeral services will be held at 2 o'clock Wednesday afternoon at 20 Smith street, Poughkeepsie; burial will be in the Poughkeepsie Rural Cemetery.

GAR DAVIDSON

SENT TO HAWAII.

Washington, Feb. 15 (AP)—The Army, putting into effect a shake-up of the football coaching staff at West Point, today ordered Captain Garrison H. Davidson, head coach, to duty in Hawaii. Captain William H. Wood will succeed Davidson at the Military Academy.

Rescue in Sight

Moscow, Feb. 15 (AP)—Rescue came into actual sight today for the four Soviet scientists stranded on an ice floe off the coast of Greenland. The Russian icebreaker Murman reported the campers, led by Ivan Papanin, had radioed they could see the ship "quite distinctly." The Murman, 12 miles off across jagged pack ice, was closest of four rescue ships attempting to take the explorers off their ice cake refuge.

Susan B. Anthony Day

Albany, N. Y., Feb. 15 (AP)—Today, by gubernatorial proclamation, is "Susan B. Anthony Day." Governor Lehman yesterday issued the proclamation and paid tribute to the famed suffragist and the "great contributions made by her to our political and governmental history." Today is the 118th anniversary of her birth.

En Route to Buenos Aires

Langley Field, Va., Feb. 15 (AP)—Six of the U. S. Air Corps "flying fortresses"—giant four-engine bombing planes—left the air base here early today on their trip to Buenos Aires for the inauguration there Monday of President Roberto M. Ortiz.

Lake Okechobee, Florida

Lake Okechobee in Florida is circular in shape, and about 30 miles in diameter. It is, with the exception of Lake Michigan, the largest fresh-water lake wholly within the United States. It lies immediately north of the Everglades. At mean level it has an area of 463,800 acres. Early explorers believed the lake was fed by subterranean streams or large springs. A few years ago this theory was more or less exploded by investigations at low water; these failed to disclose any such source of supply. It is believed that Okechobee relies entirely on rainfall.

ISOLATED ISLANDS BECOME IMPORTANT

Used as Steps in Another Trans-Pacific Airline.

Washington, D. C.—As airlines weave an air web over the Pacific, isolated islands become important land falls. Although the Samoan islands, on the United States-New Zealand route, long have been important among the Pacific possessions of the United States, Kingman reef, like Wake island, was uninhabited and of little use before it was chosen as a stop for the recent test flights of the ill-fated "Samoa Clipper."

"The new route," says the National Geographic society, "brings the Antipodes two weeks closer to the United States. The schedule calls for a three-day jump from Honolulu to Auckland."

Kingman reef, 1,067 miles southwest of Honolulu, is the first stop on the 4,400 mile outward flight from Hawaii. There, a four-masted schooner, Trade Wind, serves as a floating airport. The vessel is equipped with a radio station, weather bureau, and refueling facilities. Limited land on the tiny reef leads to the possibility of mooring a floating hotel in its coral lagoon. Some high ground, however, promises eventual improvements such as a station and storehouses.

Pause at Pago Pago.

About 1,500 miles south of Kingman reef, propellers will pause at Pago Pago bay, best and safest harbor in the Samoan archipelago. Pago Pago (pronounced Pango Pango) is on rugged Tutuila, one of six volcanic islands which make up American Samoa, lying east of British Samoa's chain of eight. An immense volcanic crater forms the harbor of Pago Pago. Important chiefly as a naval base, American Samoa is administered by the Navy department; the commandant of Pago Pago's naval station functions as governor. Samoan treaty of 1878 granted to the United States the right to establish at Pago Pago a coaling and supply station for her naval and commercial vessels.

"Samoans, purest of Polynesians, prove this relief station wisely chosen. Gentle-voiced and easy-going, their very characters spell out relaxation. No echo of the high-powered motor's drone is the Polynesian dialect, called the Italian of the Pacific. Since tradition names Savaii, British Samoa, as dispersion center of the Polynesian race over the Pacific ocean from Hawaii to New Zealand, it is not surprising to find an excellent type in Pago Pago. Light brown of color, of splendid physique, and of regular features, they maintain mental and social standards that are high among Pacific peoples. They are simple, generous, honorable, hospitable folk, but brave fighters when necessary."

"It is natural in such a climate where wants are few that Samoans do not like to work. Their food is easily produced: breadfruit requires no cultivation; bananas, taro, and yams demand little more than planting. Pigs and chickens are raised, but reserved for banquets and festive occasions."

Fishing Is Not Work.

"Although reluctant to toil in towns and country, Samoans will paddle canoes all day while sea-fishing. The women, too, enjoy collecting clams and catching shellfish. Often the men spend a whole day spearing fish along the reefs."

"Equally enthusiastic are both men and women about song and dance. Robert Louis Stevenson described their steps as vulgar and unattractive, but the dancing is never indecent before foreigners."

"With no factories in American Samoa, the chief product and only export, copra, is prepared by the primitive but satisfactory method of spreading the coconut meat on mats in the sun to dry. Women's hands weave these mats with sword-like leaves from the pandanus plant."

"From Samoa's solitude to New Zealand's gateway and greatest city is approximately 1,800 miles on the proposed air route. Auckland is the grand entrance to a veritable treasure house of natural phenomena—sprouting, keyers, smoking mountains, and boiling springs of therapeutic value. Forest-clad hills, rich in timber trees and bush scenery, fringe the city's boundaries. And Auckland is the natural outlet for one of the most productive countries in the world. On the trade route of the Panama canal, it is a busy seaport with an excellent harbor."

"In 1837 the site of Auckland was but a fern-clad gully. Two years later Captain Hobson arrived, and in 1840, as governor, raised the British flag over the settlement of Auckland. Here was New Zealand's seat of government until Wellington became capital in 1864. More concerned with commerce than politics, Auckland now engages in numerous industries—shipbuilding, sugar-refining, fruit-canning, timber-converting, and the manufacture of ammunition, sashes and doors, rope, twine, pottery, brick, tile, varnish and boots."

150-Ton Signpost Erected
London.—More than 150 tons of concrete have been used to make Great Britain's largest signpost—the merial signpost just completed in the meadows at King's Langley, Herts.

William Allen White, the "sage of Emporia, Kan.," and nationally known author and editor, is a member of the Kansas state committee planning participation in the 1939 World's Fair of the West on the 400-acre man-made island to the center of San Francisco Bay.

Gulf of Carpentaria Is One of Loneliest Seas

The moody Gulf of Carpentaria, on Australia's northern coastline, due south of New Guinea, is one of the loneliest seas. Usually the gulf is calm, the heat tempered by cooling winds. But in blazing summers the water heaves in great swells, forecasting a cyclone, and then old sailors recall that this gulf has been known throughout the seven seas as "the graveyard of ships."

There are strange features about this vast gulf, states a Sydney, Australia, correspondent in the New York Times. It has only one tide each 24 hours. And at night its waters glow more vividly than any other waters. Nowhere else, it is said, are those minute marine organisms known as plankton, which give this phosphorescent light, so plentiful as they are in the Gulf of Carpentaria.

At night, in fine weather, the waters show all colors. Every wave, every ripple, is marked with lines of light—milk-white, blue and pink. Scattered about the gulf are many islands, romantic, little known. One is Swains island, which many years ago was the site of a flourishing settlement owing its existence to yellow fever. In the early 1880s two sailors arrived at Burketown dying with yellow fever. As the dread maledictum others in the town, the population fled, most of it to Swains island, where it lived for years before returning home.

Turning Her Coat Once

Saved Margaret of Kent

In olden days in Britain, Queen Margaret of Kent, the first Christian queen to teach her people that religion, was imprisoned in a tower by her cousin Frith, who wished to rule Kent himself. Queen Margaret longed to escape to join her soldiers, who were gathered across the river, afraid to attack the tower.

Margaret saw them from her prison and knew she must reach them some way to inspire their flagging courage. But if she tried to cross the river, which was frozen solid and white, her many-colored cloak of bright patches would be easily seen by Frith's men.

However, the gallant queen made the attempt, relates a writer in the Washington Star, and escaping the tower, had an inspiration at the river side. By turning her cloak inside out, its white lining protected her from sight on the ice as she braved the crossing and joined her men on the other side, undiscovered. The next day Kent was in her power again and Christian rule restored.

Early times in Britain were dangerous, indeed. Every town was surrounded by a deep forest for protection. If a stranger entered here, he was compelled to announce his coming by blowing continuous blasts on a horn. Otherwise he would be speared on sight if discovered. "Skulking strangers come for no good," was the belief.

Historical Inconsistency

History is anything but logical or consistent. The Pilgrim fathers, for instance, originally sailed for the Hudson and found themselves at the end of their voyage on the Massachusetts coast. Their destination was the Hudson, then Dutch, because they had come from Holland, whence they had sailed from England seeking religious freedom. But in Holland, life was so good that the little band of Pilgrims, seeing absorption imminent with so many intermarrying with the Dutch, determined to keep themselves separate by journeying to the New World.

War Against Germany

The United States declared war against Germany a few minutes after 3 o'clock on the morning of April 5, 1917, when congress passed a resolution "that the President is hereby authorized and directed . . . to carry on war against the Imperial German Government and to bring the conflict to a successful termination." Thus empowered, the President, April 6, issued a proclamation that "a state of war exists between the United States and the Imperial German Government."

Renamed Bay of Paris

When Columbus discovered Trinidad in 1498 he called the Bay of Paris the Gulf of Pearls, because of the quantities of oysters attached to the trunks of the mangrove trees rooted in the waters there. It was his belief that when the oysters opened, drops of dew fell from the trees and eventually became pearls. He hoped to find enough to make a necklace for Queen Isabella, but enemies sent him home in chains without the pearls.

Iris, Snake Bite Cure

Iris typifies wisdom, faith and courage. Its early medicinal value, according to doctors of the time, was as a cure for snake bites, fits, dropsy, bruises, anger and coughs. Some doctors went so far as to say that if petals of the iris were placed on a black and blue spot for five days the flesh would assume the natural color. The roots of the iris were used as leeching rings for babies and are used to this day in some countries. The iris was used by Louis VII in his crusades in 1137.

Mayor Frank G. Sutherland of Spokane believes the state legislature should be abolished and power vested in an elected commission. Citing the success of commission government in Spokane, he asserts millions of dollars annually could be saved by applying the same system to the state.

Green Fruit Not Cause of Your Stomach Pains

Do you believe that eating green fruit causes tummy-ache? Do you imagine that an ostrich, when frightened, buries his head in the sand? Would you say that one must feed a cold and starve a fever—or that beef tea is nourishing?

If you do, declares a writer in London Answers Magazine, you're wrong.

It's swallowing fruit in chunks that causes pain, and there's actually less nourishment in six large cupfuls of beef-tee than in one slice of bread.

As for feeding colds—the familiar saying is a misquotation of the famous Dr. Abernethy, who declared: "If you feed a cold you shall have to starve a fever," meaning that stuffing a person laid up with a cold would soon bring up a fever.

Then there's the idea that cats see better in the dark. Actually, the time when cats see at their best is twilight, because their pupils expand far more than ours and are sensitive to the ultra-violet rays of the spectrum. But after dark they're just as blind as we are.

If you think your heart is on the left side, you're entertaining another fallacy. It happens to be neither left nor right, but almost in the middle.

Shaving doesn't make hair grow faster. Experts have measured under a microscope the length of hair that grows, day by day, between shaves, and have compared this rate with the daily growth in people who don't shave. The average is exactly the same.

"Fenianism," Scheme of Irish, Irish-Americans

"Fenianism" was a movement of Irish and Irish-Americans to separate Ireland from Great Britain and form it into an independent republic. The first of the Fenian leaders, James Stephens, failing to create an uprising in Munster, came to the United States to form a unit of Irish who had left their country following the famine of 1847, and with John O'Mahoney, organized the movement on this side of the Atlantic.

After the close of the Civil war, which cost thousands of Irishmen their lives, a writer in the Indianapolis News, Fenian societies—so named from a Gaelic title—were formed rapidly in many cities in the United States, and on invasion of Canada, known as the "Fenian raid," was planned and partially carried out in 1866. Between 500 and 600 men crossed the Niagara river on June 1, but were driven back, many of them being arrested by the United States authorities. Other attempts which were made during the year were checked before the men could leave the American side of the boundary line. On May 25, 1870, however, a small Fenian force crossed the frontier at Trout river, in the province of Quebec, only to be driven back by Canadian volunteers. Effective measures later were taken to quell the activities of the Fenians, because of the accompanying threat to American-British relations, and the movement passed into obscurity.

Chucker Partridge

The chucker partridge is a native of Asia, ranging from India north and west through Mongolia and into China. There are some 22 species of the birds, all closely related, but suited to different environments. They range from the lowest valleys to the highest mountain peaks and those that have been brought to America come from all varieties. The birds are large. Their size is between a Hungarian partridge and a pheasant. The average "Hun" weighs 11 ounces, but these birds tip the scales at 20 ounces. They are a dove gray, with black bandings across the chest and on the tail. The beak and small wattles are blood red. The birds covey very much like a quail, being gregarious. In the spring, like quail, they pair off and build nests.

Famed Tower of London

Not one, but many towers compose the famed Tower of London. Normans built the fortress on the ruins of another fort constructed by Julius Caesar's legions. It has served since as the royal palace, a prison, and, finally, as sort of an historical museum and resting place for the crown jewels. Until 1834 it also housed the royal menagerie. Though many persons believe it still is an impregnable fort guarding London, its chief weapons are ancient swords and armor of historical value.

Dolls of the Ancients

"All the world loves a doll"—though what passes for a doll in some places wouldn't be recognized as such elsewhere. In parts of South America it's a bone, wrapped in a blanket if a boy, and in a petticoat if a girl. Boys and girls in Asia Minor play with pillows as "dolls." Ancient Greek dolls were sometimes made of wax. Those of old Egypt had clay beads for hair. Cortes, on his first conquest trip into Mexico, says the Washington Post, found Montezuma and his Aztec court playing with elaborate dolls.

Chair, Symbol of Authority

In ancient times the chair was a symbol of authority, common persons using chests, benches or stools as seats.

The House of Tudor, which ruled England throughout the 16th century, was founded by Owen Tudor, a Welshman, who married Catherine of France, the widow of Henry V of England.

Twenty-eight foreign merchant ships have a greater tonnage than the Manhattan and Washington, the largest liners flying the United States flag.

big moments in the lives of FAMOUS FLIERS

C.B. (CASH) CHAMBERLAIN

CASH IS A NOTED FLIER UP WHERE THE WINTERS ARE COLD.

HE RECEIVED HIS EARLY AVIATION INSTRUCTION FROM FRANK HAWKES, THE WORLD FAMOUS FLIER.

CHAMBERLAIN JOINED THE NORTHWEST AIR LINES, INC. IN 1931. HE HAS MADE SEVERAL FIRST-RUN FLIGHTS OVER WELL KNOWN AIR LINES. IN 1928 HE FLEW THE FIRST SHIP FOR UNIVERSAL AIR LINES, CHICAGO TO CLEVELAND.

CASH FLIES ONE OF NORTHWEST'S UP-TO-DATE SHIPS, TWIN CITIES-CHICAGO.

UP THERE IN THE COLD NORTHWEST, AS WELL AS HERE, MEN KNOW THE STAMINA-BUILDING QUALITIES OF MILK.

CASH IS SAID TO BE STRONG ON FIREARMS, AND HE KNOWS ALL ABOUT THAT STUFF. HE'S A COLLECTOR OF GUNS AND SUCH.

HE ALSO COLLECTS FISH—ON A LINE.

Laborites Warn Against 'Suicide'

(Continued from Page One)

gro population has grown from 134,191 in 1910 to 112,811 in 1930, an increase of 225 per cent.

As a result of the commission's findings, Andrews asked legislation to:

Exclude from labor's protection such unions "as wish to bargain only for certain racial or religious groups" while denying membership privileges to other groups for employment opportunities.

Provide a penalty for racial discrimination in employment on state or municipal works contracts.

Human Hair for Wigs

Human hair, secured from the heads of European peasant girls who make a regular business of it, is used in wigmaking. In most instances the money obtained from the sale of their hair goes toward their dowries, and some of them have as many as eight cuttings in the course of their lives. The hair is taken from a three-inch diameter in the back of the crown, and the front and the side hair is draped to conceal the shorn spot. The best quality hair is Scandinavian, blond and silky. Italian and Spanish hair have a dark, wavy, lustrous quality. Eastern European hair has a coarser texture; by the time one gets to China, the hair is almost wavy and is of use only for theatrical wigs of inferior quality.

Pipe-smoking grows popular again; it's a job you can work at when you haven't any other job.

About The Folks

Charles Paulsen, of Clifton avenue, who recently underwent a serious operation at the Kingston Hospital, is convalescing rapidly.

Attorney Arthur C. Connelly, of Fowler & Connelly, is still confined to his home by illness and it will probably be a couple of weeks before he will return to his office.

Mrs. Peter J. McCutcheon, of 85 Spring street, who underwent a mastoid operation at the Benedictine Hospital Monday morning, is doing as well as can be expected.

Loadings of revenue freight in 1937 were approximately 17 per cent less than in 1930.

Local Death Record

Frank W. Rosa died at the home of his son, Fred Rosa, in High Falls, Monday, aged 65 years. Surviving are his wife, two sons, William of Cortekill and Fred, with whom he lived; one brother, Fred Rosa of Poughkeepsie; one sister, Mrs. Louis Elks and Mrs. Leo Jorden of New Jersey and several nieces and nephews. Mr. Rosa was a member of the Knights of Pythias of Alligerville and A. J. Anderson Council of J. O. U. A. M. Kerhouskon. His funeral will be held at the home of his son, Fred, with whom he resided, Wednesday, at 2 p. m. Burial will be in Kysierke Cemetery. The Rev. Ben Scholten will officiate.

Mrs. Rosina Van Wagner, widow of David Van Wagner of Tabasco, died at her home Monday, aged 75 years. Surviving are one son, Nial; two daughters, Mrs. Julia Van Vliet of Kerhouskon and Miss Eta Van Wagner of Tabasco; one sister, Mrs. Joseph Gerselone of Kerhouskon; three half-sisters, Mrs. Ollie Terhoush of Kerhouskon, Mrs. Little Embree of Kingston and Mrs. Vera Quick of Accord; two brothers, Wilcox Gray of Palenotown and Menzo Gray of Walden; five half-brothers, Charles, John, Jacob Gray of Kerhouskon, and Melvin of Walden and Virgil Gray of California. Her funeral will be held at the H. W. Humiston Funeral Home, Thursday at 2 p. m., with interment in Pine Bush Cemetery. The Rev. Harold Schadevald of Kerhouskon will officiate.

The funeral of Mrs. Grace Spina, who died suddenly at her home last Friday, was held this morning from her late home, 65 Andrew street, and at St. Mary's Church where the Rev. David W. Petry was the celebrant of a solemn high Mass of requiem for the repose of her soul. Father Petry was assisted by the Rev. William H. Kennedy and the Rev. James P. Moore, deacon and sub-deacon. The children's choir of St. Mary's school sang the Gregorian responses with Organist Theodore Riccobono at the console. The services were largely attended by friends of the Spina family and

THE JOINERS

News of interest to members of fraternal societies.

Any Rebekah desiring transportation to Bearsville on Wednesday evening is asked to call Mrs. Gertrude M. Bartlett, telephone 665-M. A bus will leave from the Odd Fellows Hall, corner of Broadway and Brewster streets, at 7:30 o'clock.

Card of Thanks.

We, the undersigned, wish to thank our relatives, friends and neighbors for their many acts of kindness during the illness and death of our uncle, Levi Carl. We also wish to thank the Manhattan Shirt Co., relatives and friends who sent floral offerings. (Signed) MR. AND MRS. CHARLES ENTROT AND FAMILY.

DIED

HENNINGER—On Sunday, February 13, 1938, at the home of her daughter, Mrs. Theodore Fonda, Saugerties, N. Y. Lena Henninger, mother of Mrs. Currie Hurley, and Emil Henninger, both of Lake Katrine, and Mrs. Minnie Fonda, of Saugerties, N. Y. in her 74th year. Born in Germany. Funeral will be held from the home of her daughter, Mrs. Theodore Fonda, Saugerties, N. Y. on Wednesday at 2 p. m. Interment in the Lake Katrine Cemetery.

STEADY CENTER OF POPULATION FOUND

Census Bureau Discloses Forecast of 1872 Is True.

Washington, D. C.—A prophecy made by a noted geographer 65 years ago that the center of population of the United States would ultimately be at a point 30 miles east of St. Louis appears nearer of fulfillment.

The term "center of population," as used by the census bureau, is a point which may be considered the center of gravity of the United States, that is, if it were a rigid plane without weight and the population distributed over it, with each individual being assumed to have equal weight and to exert an influence on a center point proportional to his distance from the point.

Although the bureau has not made a study to determine the center of population since 1930 because of the expense involved, it was believed that the basis of most recent population distribution estimates, the hypothetical point is several miles west of Paxton, Ind., close to the Indiana-Illinois line.

Stationary Point Forecast. In 1872, J. D. Hildard, prominent geographer of his day, predicted the line which the center of population would follow and prophesied that the imaginary center of gravity would move by the year 2000 to a point approximately 30 miles east of St. Louis where it would remain stationary in subsequent years.

The census bureau in 1930 computed the pivotal point at a site 2.9 miles northeast of Linton, in Stockton township, Greene county, Indiana. In the decade from 1920, the center moved 22.3 miles westward and 7.6 miles southward. Because of the large westward migration of population in 1933 and thereafter, experts believed that the shift in the center would exceed 25 miles.

The greatest movement west was during the decade from 1850 to 1860 when the center advanced 80.6 miles. The least movement west was during the decade from 1910 to 1920, when it advanced only 9.8 miles. The total westward shift from 1790 to 1930 was 589 miles.

Along Thirty-ninth Parallel. Hildard predicted that the center would follow close to the thirty-ninth parallel of latitude. Census bureau experts said the line of the movement since 1872 has been remarkably close to that parallel.

The point farthest north was reached in 1790 and farthest south in 1830. In 1790 the center was approximately 23 miles east of Baltimore. In the next decade it had moved to 18 miles west of Baltimore. Succeeding decades found the center moved successively to points 40 miles northwest by west of Washington; 16 miles east of Moorefield, W. Va.; 19 miles west-southwest of Moorefield; 16 miles south of Clarksburg, W. Va.; 23 miles southeast of Parkersburg, W. Va.; 20 miles south by east of Chillicothe, Ohio; 46 miles east by north of Cincinnati; 8 miles west by south of Cincinnati; 20 miles west of Columbus, Ind.; 6 miles southeast of Columbus; in the city of Bloomington, Ind., and in 1920, 8.3 miles south-southeast of Spencer, Washington township, Owen county, Indiana.

First Alchemist Lived in Japan 2,160 Years Ago

New York.—The earliest known alchemist, named Jofuku, lived in Japan more than 2,160 years ago, according to a study reported to the American Chemical Society by Rikuro Nakaseko of Tokyo and Tenney L. Davis of the Massachusetts Institute of Technology.

The emperor Chin Shih Huang of Japan, ruling about 225 B. C., is said to have sent Jofuku on an elaborate naval expedition to find three supernatural islands in the midst of the Eastern sea, "where the immortals lived and a drug existed which prevented death." The alchemist, whose career is recorded in the "Shih Chi" or "Historical Memoirs of Ssu-Ma Ch'ien," discovered a remarkably peaceful and fertile land where he became king.

Jofuku's tomb stands on a wall-enclosed plot of sanctified ground at Sangu in Wakayama prefecture, Japan, where it is visited by pilgrims who burn incense, make offerings of pennies or rice, and pray for long life and happiness.

If Her Hat's Crazy Get a Load of This!

Hollywood.—A test to determine just how fantastic Miady's hat can be without arousing comment is a failure.

Miss Marion McKenzie, former New York show girl, who carried out the experiment along Hollywood's boulevards, attracted no more than ordinary attention when she wore on her head:

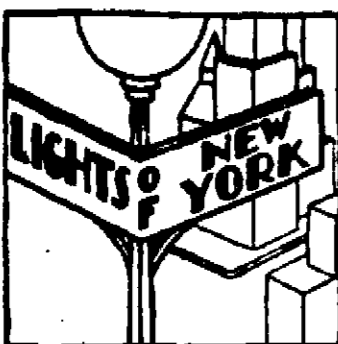

A lampshade, quite gaudy;
One rubber band;
Two artificial flowers;
One chain off a bathtub plug;
One shoelace.

A laundry truck driver offered the only comment:

"Huh! If you think that hat's funny you ought to see the one my wife just bought."

Benefit Card Party. The Priscilla Society Club of Pittsburgh held its first benefit card party at the home of Mrs. Ernest Smith in Sleightsburgh on Sunday night. Progressive play was played, after which a substantial lunch was served.

St. YOI.—Thurs. Night at Audubon, St. Joseph's Card Party. —Adv.

By L. L. STEVENSON

Johnny Roventini, who is 43 inches tall, celebrated his twenty-seventh birthday recently. He received many gifts because he has a large following. One, however, was of special significance. It consisted of a life contract to appear on the air programs of a large cigarette company. The amount involved was not announced but it must have been considerable since Johnny, before the life contract, had an income ample enough for him not only to support himself but to act as the principal support of his father, mother, brothers and sisters, a family of 10 in all. When he first went on the air he acted on occasions as call boy at Park avenue and other parties where a smart page was held to be essential to the general scenery. Now his paging is done only before a microphone. Outside jobs are no longer necessary.

The part that Johnny plays on the air is an easy one for him. As a matter of fact, he spent some time rehearsing for it. For his rehearsals, his pay consisted largely of tips. As a page boy at the New Yorker he was going through the lobbies shouting "Call for Mr. Smith" or something like that, and an officer of a tobacco company happened to see and hear him. He fitted right into the picture in the mind of the executive and was hired without any formalities whatsoever. So now his picture appears on cigarette cartons and he's saving up to retire. He has two hobbies, hunting and ping-pong. When he hunts, he uses a specially constructed gun—and he does bring home game. In ping-pong he's a wizard. Because he reaches only to the table top, he can swipe at the ball both underhand, the conventional way, and overhand, and has such a powerful stroke he smashes many balls.

Despite the fact that news is a most perishable commodity, not infrequently it travels long and circuitous routes before it is published. In mind is a dispatch which appeared in a New York morning paper. It was written on the way down the Yangtze river and was filed for transmission by cable at Shanghai. From Shanghai it traveled to Manila and from Manila to San Francisco. From San Francisco, it came to New York to the syndicate whose correspondent filed it. From New York, it went to London where it appeared in the Daily Mail. The London correspondent of the New York Times picked it up and sent it to his paper where it was published. Incidentally, it was received in New York in the Times building and from there sent to London.

That reminds me of Frank Sibley of Boston. Years ago, the steamer Portsmouth went down off Cape Cod. Newspaper men were sent from Boston to cover the wreck and above all to identify the vessel. From wreckage that came ashore, they picked up a good story since the Portsmouth was an important steamer. But while they were working, such a blizzard came up that wires went down and roads were blocked. Bottled up, apparently all the newspaper men could do was wait for a chance to get back to their offices. Sibley, however, knew that the American terminal of the French cable was at Orleans a short distance away. He made his way to the cable office and sent a story to Paris with instructions that it be cabled back to Boston. Thus his paper scored a notable scoop.

Get a lot of fun out of reading the 1938 Almanac for New Yorkers, the second edition of the metropolitan data prepared by the federal writers, project of the Works Progress administration. The publication is a mixture of past and present, with a number of jingles and no end of information. For instance, it is a violation of the sanitary code to sleep in one's bathtub. The first houses supposed to have been occupied by white men on Manhattan were on the site of 41 Broadway. In 1654, it cost an Indian 30 cents to be ferried from Manhattan to Long Island, while for all others the charge was only 15 cents. September 28, 1904, a woman was arrested for smoking in an automobile on Fifth avenue. Those are mere samples.

Paul Revere's Ride Only Fraction Over 12 Miles

Lexington, Mass.—Faintest measurements, with the use of contemporary road maps, reveal this paradox: That Paul Revere, on his immortal midnight ride, covered only 12.66-88 miles.

Whereas William Dawes, the little-known express rider who fulfilled a similar purpose over a different route the same night, covered 16.61-88 miles.

Ornament for Nose of Woman

The "Khasama," which looks like a padlock, is hung from the nose when the Arab woman reaches marriageable age. It is heavy, with a wedge of turquoise in the center. Another ornament is the "Warri-da," coveted by women, but costing too much for most. It is of gold, studded with precious stones, mother-of-pearl and a bit of turquoise.

Tee Parties Only One Item On Golf Wives' Calendar

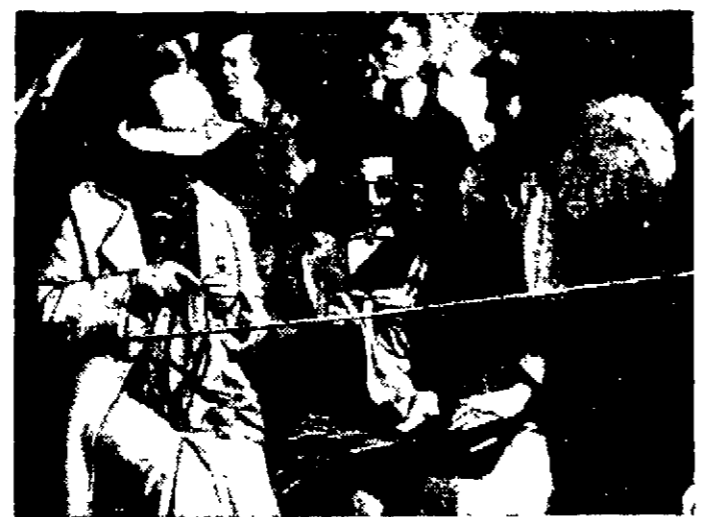

A GOLFER'S WIFE . . .

What a life! Obviously sighs Miss Average Girl as she reads of the countrywide resort-to-resort tour of the professional golfers and their wives. But Mrs. Golf Professional will assure her it's an exacting life. Mrs. Jimmy Thompson clips a story for the scrapbook. That's only one of her jobs. Golfer's wives are valet, pal and even selector.

WASHES SOCKS . . .

Mrs. Thompson, the former Viola Dana, star of the silent films, packs and unpacks in the hurried moves. Little other wives, she personally hand-launders her husband's golf socks. Let them go to a laundry? Never! They must be shaken or a thread might pull and knot up to distract Jimmy's attention from that all important putter.

KNITS AND GOSSIP'S . . .

Some golfers want their wives to tramp along in the gallery. Others find their wives' presence makes them more nervous, and these "selfish widows" sit around the club house, knitting and gossiping. They live under a strain, too, for the matter of a mislaid put decided whether they'll get that new fur coat. Shown knitting are Mrs. Abe Espinoza (left), Mrs. Ben Hogan and Mrs. Harold McSpaden.

BUT DOESN'T PLAY GOLF

However, it's not all high tension. Here are Mrs. McSpaden (left), Mrs. Neil Christian, Mrs. Hogan and Mrs. Byron Nelson enjoying an outdoor bridge tea. There are dances, movies and dinner parties at night. And at resorts, where most winter tournaments are played, there is tennis and horseback riding for the girls who enjoy these sports. Few of the wives play golf and none are good at the game.

Farm Radio Programs

Winter months are good months for farm families and others, interested in the farm, the home, and the garden, to keep up-to-date on latest developments.

A new booklet gives the farm programs for January, February and March over the Cornell station WESG. Several new features have been arranged, and current popular ones continued. Programs by farm and home bureaus and 4-H Clubs are also listed.

Finds Ferguson Had Right to Wood

Michael L. Ferguson of Mt. Pleasant, who was arrested Saturday by Trooper Dunn, on a warrant charging petit larceny and who had been held at the Ulster county jail, was released following a hearing before Justice William C. Weyman of Phoenixia Monday night.

As the matter was explained to Justice Weyman, Matthew Hasbrouck, who was the complainant in the case, had gotten permission from a neighbor to get out a certain amount of wood and, according to Ferguson, made an agreement with the latter to cut down the trees and saw up the wood on a 50-50 basis. Ferguson got a couple of friends to assist him in the work.

It was stated that a total of 17 cords of wood was worked up and divided; Ferguson drawing away the last of the lot, some 2 1/2 cords. It appears that Hasbrouck figured that he should have had more of the wood than he received, because of certain alleged expenses connected with the proposition, and caused Ferguson's arrest on the petit larceny charge.

The Justice evidently accepted Ferguson's testimony as to the oral agreement to divide the wood equally, and he found the defendant not guilty of the charge. Ferguson was represented at the hearing by Francis Martucci, a New York lawyer, who has been spending some time at Phoenixia for his health.

Paltzonian Has Exhibit For Fair

(Continued from Page One)

kingfishers is included in the bird collection. One item which never fails to attract attention is a 43-inch long copperhead.

Mr. Messmer has taken other things, too, from the swamps: Two iron pie pans, dishes, vases, three copper coins, one United States, 1843, and two Canadian coins; also a few Chinese pennies. The swamp contains medicinal clay, Mr. Messmer says.

The land which Mr. Messmer owns consists of 255 acres. "I expect Mother Nature to provide a living for me as long as I live," he says.

O'Reilly Stationery Co., Inc.
Albany, Feb. 15.—(Special)—A certificate of incorporation has been granted by the secretary of state to the O'Reilly Stationery Co., Inc., of Kingston, to carry on a general stationery business. The capital stock of the company is \$10,000, divided into shares of \$100 each. The directors of the company are Joseph A. Sheppard, William O'Reilly and Mary P. O'Reilly, 51 Pine Grove avenue, Kingston.

Turkey Supper.
Esopus, Feb. 15.—The Ladies Aid of Esopus will serve a turkey supper on February 23.

Miss Stone Ridge Will Be Selected

There will be another evening of social games held at the Grange Hall on Saturday evening, February 19, under the auspices of the Stone Ridge Grange. The public is cordially invited to attend, and a real good time is promised.

promised all. You may bring your friends and help to make this party a greater success than ever. At the same occasion a beauty contest will be started to determine who shall be the representative to appear at the Ulster County Apple Blossom Festival as Miss Stone Ridge. All applicants are cordially invited to enter the contest at this time. Anyone living in the community may do so. It is not necessary to live right in Stone Ridge, nor to belong to the Grange. There is no charge for entry, nor any obligation of any kind. It is hoped that there will be plenty of entries. For particulars consult the committee.

Kelly's Corner

New York Jewels Here Wednesday
—Diers Thinks of Baseball

By Joe Kelly

Three new records in the City Bowling League: Rube Leventhal's 711; high team single, American Legion, 1066; new team high three games, Legion, 3146. Some bowling! . . . Meb Lynch has been looking over the Wilbur baseball diamond already. . . . Was up there ground hog day. . . . Guess Meb is coming out of retirement to become a manager again. . . . See you with the boxers. . . . Another sign of spring, Freddie Smith, police team pitcher, looking up at the sign and murmuring, Newburgh. . . . They came, saw and were satisfied, the fans who turned out at the municipal auditorium last night. . . . Monday is not a bad night for boxing, the attendance proved. . . . And the show was a corker.

Just as we thought, you and I, the Colonials took a 15 point lacing at Philadelphia. . . . Next on the list for Pop Morgenweck's club is the Jewel quintet at the auditorium, Wednesday. . . . Three New Yorkers broke even with the Jersey Reds over the week end. . . . A good tip: Sonia Tulin of the Telephone always knows the out-of-town scores. . . . Thanks a lot pal. . . . See you at the press table. . . . Manager Charley Diers of the Grunewald likes to think about spring. . . . No, he's not a poet, just a City League pilot thinking up his roster. . . . Guess it won't change much from last summer. . . . Understand he's looking for a second baseman. . . . Unless the weather changes a lot, Walt Donnarumma can forget about hockey until next winter. . . . And Gus Modjeska of the Wilbur Winter Sports group will have to go back to roller skating. . . . What ever happened, it's a thing, after White Crisler tested that challenge at the Crystal Beauty bowlers. . . . Irv Van Rieck sticks close to training rules now. . . . Chews gum instead of blowing smoke rings.

Bill Kopp is not as fast at reporting his basketball scores for the Rosendale Firemen as he is at getting out for a confederation. . . . Better step on it, Bill. . . . Get 'em in early. . . . Tony

Debrosky and Gil Kelder, the Kotzenhammer twins of local sports circles made 22 points between them for Rosendale last Saturday. . . . Dolly Tessalo generally rings in late with his sports news any more. . . . A few years back he used to report in person, bright and early, with a big cigar. . . . Guess he catches his beauty sleep in the morning now. . . . Dolly's right monicker is Francis Wojciechowski. . . . Tonight is City League night at the auditorium.

Al Schacht, the baseball clown, is getting around. . . . One day last week he spoke at a luncheon in Albany, a dinner in Wilmington, Del., and had his supper in a Broadway night club. . . . Al has just about decided to go west with the Pirates instead of south with the Red Sox this spring. . . . Which is Florida's loss. . . . Young Jimmy Adamick, who Jack Kearns says is a combination Jack Dempsey and Mickey Walker, is showing fans some nifty punching in his workouts for Harry Thomas. . . . Lou Gehrig sees the Indians, rather than the Tigers, giving the Yanks the most trouble next season.

The Royal and Ancient Association of St. Andrews, says Eddie Briezt, is puzzling these days over two unusual events. . . . In one a particularly accurate gent hit a ball that wrapped itself in the flag on top of the staff. . . . Noting this, the guy shook it loose and it rolled into the cup. . . . Now he wants to know if he made a hole-in-one. . . . What do you think? . . . In the other case, a lazy cove pulled a new ball from his pocket and hit it off the peg without removing the paper wrapping. . . . His opponent wants to know whether he infringed the R. and A.'s sacred ruling on that point. . . . Again, how would you vote? . . . Richmond, Va., will see Lou Ambers, the lightweight champion, against Lou Jalloz February 21. . . . Cod liver capsules are helping Nathan Mann put on poundage for Joe Louis. . . . If Young Calvin Griffith makes a go of the Charlotte, Piedmont League, club this summer, he'll step into his dad's shoes as boss of the Washington Senators.

Schedule of Basketball Games in City League's Closed Division

Cards-Giant Deal Is Still Pending

St. Louis, Feb. 15 (AP) — The door was still open to a Cards-Giants deal involving among others Catcher Gus Mancuso, for whom William H. (I'm Not So Terrible) Terry autistically sought a first string backstop berth.

"I'm trying to trade Mancuso because he can't stand playing second fiddle," the Giants' manager explained after naming Harry (The Horse) Danning as his No. 1 catcher for 1938.

He said he "liked" Stan Bordak, Cardinal outfielder, would part with Willie Berger, as listed pitcher Hal Shumacher, as like-wise "tradeable."

Buddy Hassett Hasn't Signed Yet

New York, Feb. 15 (AP) — Although Larry MacPhail wants to wait a few more days before he tells how many Brooklyn Dodgers have signed contracts, he admits Buddy Hassett is not yet in the fold and four players haven't been heard from. A contract was sent to Hassett, he said, and came back unsigned. Reports have it the Dodgers wanted to cut Buddy's salary \$1,000.

Montreal—Yvon Robert, 225, defeated Danno O'Mahoney, 225, Ireland. (two of three falls).

Rosendale Five Trims Soldiers

The Rosendale Firemen swamped Battery A at Firemen's Hall Saturday 39-21. The smoke eaters got away to an early lead, held it throughout the game and weren't in danger at any time. Tony Debrosky and Gil Kelder were high for Rosendale with 12 and 10 points while Spitzer was high for the soldiers with eight. Next Friday the Firemen travel to Stone Ridge for the fourth of their five game series. On Saturday night the Pirates who recently beat Stone Ridge by the score 49-27.

The boxscore:

Rosendale			
	P.G.	F.P.	T.P.
D. Rask, rf	1	1	3
Auchmoody, rf	1	0	2
Kopp, lf	4	0	8
Debrosky, c	4	4	12
Kelder, rg	4	2	10
H. Rask, lg	0	0	4
P. Rask, lg	0	0	0
	16	7	39

Battery A

	P.G.	F.P.	T.P.
Spitzer, rf	1	6	8
Bell, lf	0	0	0
Fertel, c	1	0	2
Dock, c	1	1	3
Freileigh, rg	1	0	2
Colvin, rg	0	1	1
Glenn, lg	2	1	5
	6	9	21

Referee—Regan. Couts committed—Rosendale 15; Battery A 10. Score at half time—Rosendale 13; Battery A 7.

In the preliminary the Rosendale Juniors defeated the Rifton J. O. U. A. M. quintet by the score of 20-13. Goldwasser made nine for Rosendale while Pekarsky scored seven for Rifton. Friday night the Rosendale Juniors play the Stone Ridge Juniors at Stone Ridge.

Would Abolish Boxing Bureau

Albany, N. Y., Feb. 15 (AP)—Abolition of the 18-year-old New York State Athletic Commission was proposed in the legislature today by Democratic Assemblyman Crawford W. Hawkins, Brooklyn.

The commission was created in 1920 under legislation sponsored by former Mayor James J. Walker of New York city, then Democratic Senate leader. Prior to introduction of the bill, Hawkins asked a legislative investigation of the commission with the assertion "there has been widespread criticism of its general conduct."

Yankee Manager Is Optimistic

New York, Feb. 15 (AP)—"Providing we have no serious injuries," said Marjoe Joe McCarthy, after carefully crossing his fingers, "I guess we have as good a chance as anybody of winning another championship."

The Yankees' manager was in an unusually optimistic frame of mind. He had just heard that a pair of his stand-bys, Bill Dickey and Merrill Hoag, had decided to do business with the club and wouldn't quit baseball after all. The teams the Yanks will have to beat, Joe predicted, are Detroit, Chicago and Cleveland, in that order, with Boston possibly coming up, though he didn't seem much worried about the Red Sox.

Red Lucas Ready For Ball Season

Pittsburgh, Feb. 15 (AP)—Youngsters, take a tip from Red Lucas, veteran pitcher and holder of the major league pinch-hitting record.

Although the advance squad of the pirates doesn't leave here for spring training quarters at San Bernardino, Calif., for two weeks, the reliable Lucas is already in shape. President W. E. Benswanger of the Pirates received Lucas' signed contract yesterday by mail, with this letter enclosed:

"I hope I can have a lot better year in '38 than I had in '37. I'm feeling fine and working out daily."

Kingston High Varsity Plays Middletown Away Tonight

Coach G. Warren Kias and his Kingston High School basketball varsity have a chance tonight to pull out of the first place tie with Liberty when they take on the tough Middletown aggregation at the latter's court. The game is slated for 8 o'clock.

CRISLER WITH HIS NEW BOSS

When Herbert O. "Fitz" Crisler (right), Michigan's new head football coach, came to Ann Arbor, Mich., one of the first persons he saw was Athletic Director Fielding H. Yost (left), his new boss. The two are shown in a jovial mood shortly after the former Princeton gridiron mentor's arrival.

Clintons and St. Mary's Win In Church League Finale

He Follows Eddie Tolan

By the AP Feature Service.

Ann Arbor, Mich.—Michigan U.'s negro ace, Bill Watson, is readying for another record-breaking track-and-field spree this spring. He's one of those rare one-man track teams. Bill holds the Big Ten shot put record and also won the discus and broad jump last season. This year he has added spinning and high jumping to his list. But he is world record holder only in the shot put. His conference mark is 50 feet 10 1/2 inches and he's beaten that by two feet in practice this year. Coaches attribute his success to extraordinary speed and an infinite capacity for detail.

He wants to compete in the 1940 Olympic games. Bill already ranks alongside Michigan's other negro aces, DeHart Hubbard, Eddie Tolan, Booker Brooks and Willis Ward.

The Clinton Avenue Aces finished the Church Basketball League schedule on the Y. M. C. A. court Monday night with a 25-20 victory over the Comforter cagers, second half winners. In the other contest St. Mary's, first half champions, who will meet the Comforters for the title, tuned up for the playoff with a triumph over the Redeemers by the score of 36-29.

Trailing 10-11 at the half the Clinton Avenue Aces started a brisk last quarter rally, coming from behind to nose out the Comforters. The Aces were on the short end of a 20-19 score, with three minutes remaining when baskets by Boyce and Dory clinched the contest. Cowboy Dory and Gog Boyce failed 20 points between them for the Clintons. Rhymer led the Redeemers with seven markers. St. Mary's led the Redeemers 28-20 at the intermission and a high scoring record seemed certain but both clubs settled down after the recess and a total of only 17 points was scored in the second half, with the Irish coming out on top 36-29. Eddie Tolan, adding 13 points for the Redeemers while Albany led the Irish with four nubs and a foul for a total of nine points.

The box score:

St. Mary's			
	P.G.	F.P.	T.P.

Score at end of first half: Clinton Ave. Aces 19, Comforter 14.

White Eagle Games Tonight

The basketball schedule at White Eagle Hall tonight: Girls' game at 7 o'clock, the Stooges vs. Glasco at 8 o'clock, and the White Eagles vs. Battery A Prox. 9 o'clock.

Legion and Leventhal Set New Records in City League

Bowling against St. Peter's Monday night, the American Legion cagers, posted a new City League, and a new high in the city, a total of 3146. The Legionnaires put together games of 1,066, 1,038 and 1,042.

As the Doughboys hung up their new mark, Reuben Leventhal posted a 711 series to overshadow George Flemming's 681, the previous league record, and register his first 700 score in league competition.

That 3,146 for the Legion, bettered the ex-cervicemans' club own high mark of 1,931, and topped that new city high chalked off by the Pentiles last week, 3,106, and came close to the Fitzgeralds' open competition score made in Troy, 3,199.

The scores:

Star debuts high single high triple and high game.

MARLBOROUGH

Personal Notes.

Marlborough, Feb. 15. — On Friday evening a joint meeting of the Marlborough and Milton P. T. A. will be held in the Milton school. Founder's Day will be celebrated at this meeting. Mrs. Avery S. Pratt, vice president of New York State P. T. A., will be the guest speaker. Also, James Scott of Milton will speak on "Ait." At the meeting held last month, the Milton P. T. A. was guests here.

The drilling and sinking of Shaft 5-A, of the New York water works project, located on the Clifford Lockwood farm in West Marlborough, reached a depth of 1,000 feet on Friday. The tunnel headings have been reached and work will start on the underground turning tunnels which will carry the water to the city. Marlborough and Chelsea will be the connecting links of the tunnel beneath the river. At Chelsea there will be a permanent drainage system, from which reserve water may be drawn in case of damage to the rest of the aqueduct. The Windsor Building Supplies Co. of Newburgh has already furnished 1,600 yards of material for these two shafts. The Shaft 5-A has been under the personal supervision of Superintendent Steve Hager, who reports no casualties.

Mr. and Mrs. Frank DeGeorge spent the week-end in New York city, and while there attended a dance held at the De George house.

Mrs. Michael Ruzick and daughter of Catskill arrived at the home of Mrs. Ruzick's parents, Mr. and Mrs. Van Allen Salisbury, on Monday for an extended visit. George Purdy, who has been ill at his home with whoming cough for several weeks, has resumed school at Mrs. Kerkerson's. Mrs. L. Matlee, who has been spending several weeks visiting in New York city at the home of her daughter, has returned to her home on Western avenue.

Mrs. William Nicklin is all at her home.

State auditors were busy the latter part of last week auditing the books of town officials. Due to the fact that all books were in the hands of the auditors, the new water rates will be given out at a later date. James Hunter, water commissioner, has charge of this information, which soon will be issued to all water consumers.

A safe, which is estimated weighing close to four tons, and which served the old Marlborough High School for many years, was removed last week to the office of the town clerk. Late last year a resolution was passed by the board of education of the Central school that the huge safe be offered to the town, providing the town pay for its removal. On Thursday evening, February 17, in St. Mary's Hall, the local chapter of Court Santa Maria, Catholic Daughters of America, will conduct another card party. Mrs. Miles Doyle is general chairman.

The firemen were called out on Thursday to a chimney blaze in the home of Allen Palttridge, on the Lattintown road. The blaze was extinguished without doing damage to the home or furnishings.

Mrs. Victor Froemel was hostess last week to the Weekly Card Club.

Adolph Froemel spent the week-end visiting in Jersey at the home of relatives.

Charles Morell of Washington, D. C., spent the week-end with his family on Orchard street.

Mr. and Mrs. Olof Sundstrom and daughter, Ann, spent Sunday in New York city with Captain and Mrs. Edward Smith.

Mrs. Margaret Quimby of Poplar Ridge, N. J., spent the week-end with her parents, Mr. and Mrs. Edward Quimby, on the Ridge road.

Steam Heating Many Years Ago

Steam heating was in use in Vienna over 1,800 years ago. Excavations of an old Roman villa show. The villa was unearthed in the heart of Vienna. It was heated by a system of pipes which brought steam into the spaces beneath the floors. The complete floor structure of the building, which consisted of six rooms and a kitchen, remains. Tiles and weapons found in it were apparently those of an officer of a Roman legion, stationed here at one of the last outposts of the Roman empire.

SEE YOU—Thurs. Night at Auditorium, St. Joseph's Card Party. —Adv.

Appeal Made In City Court Case

An appeal by defendant from a judgment for plaintiff rendered in city court was taken up for trial Monday afternoon in county court before Judge Traver and a jury. The action is the first of the civil cases to be tried at the present term of the court, the first week of the term having been devoted to criminal work.

William Jacobellis and Chester Winne, defendants in the action brought by Morris Miller of this city, seek to have the matter reviewed. In August, 1936, the case was heard in city court and Judge Culliton decided the matter in favor of the plaintiff. The action in county court is an appeal from that decision.

Arising out of a crash between the truck of Miller, driven by Dominick Perry of Gill street, and a parked truck of the defendants, the plaintiff seeks damages in the sum of \$327.50 for damages to his truck on May 7, 1936. The plaintiff alleges that during the early hours of that morning his truck in charge of Perry had left the Columbia Restaurant on Broadway and was proceeding down Broadway. Near East Chester street a truck of defendant was parked. It was a stormy foggy morning and Perry claims that the truck of defendant was parked four or five feet from the curb with no lights showing and the driver out of the cab. He testified that due to the fog he had been unable to see the parked truck until he was about eight feet away when he attempted to swing around it but could not. He testified he was proceeding about 15 miles an hour because of fog and that when he left the restaurant he was able to see about a half block ahead. The truck he said was parked five feet from the curb without lights showing. He told the jury his lights would show 100 feet ahead but because of the fog and the lack of lights upon the truck he could not see it until he was very close. On cross examination

he said he had been driving that morning under his 1935 license and had later renewed his operator permit.

Elmore H. Nathan appears for plaintiff and Francis T. Murray for the defendant.

The defendant alleges that there were lights on this truck prior to the accident and that the truck was also equipped with reflectors which could have been seen had the driver of the Miller truck looked. In the collision the tail light of the truck was broken and put out.

Officer Wesley Cramer, who was at the scene shortly after the accident, said he had been able to see the truck 60 feet away when he approached with the police patrol car. The truck was standing about four feet from the curb on Broadway at the time. There were no lights on either truck at the time, the Miller headlights having been broken when it struck the defendant's truck and the tail light of the truck was also damaged in the accident. The case was continued today.

Case Adjourned.

George Johansen, arrested by State Trooper Ray Dunn at Phoenix on a charge of operating a car while intoxicated, was arraigned before Justice of the Peace William Weyman Monday afternoon and the case was adjourned until March 7. Bail in the sum of \$100 was continued. Defendant asked for an opportunity to secure an attorney.

Ford Truck Dollars Buy More Than Ever in 1938!

Wide range of body types

Units designed to meet more than 90% of all hauling needs.

4 wheelbases

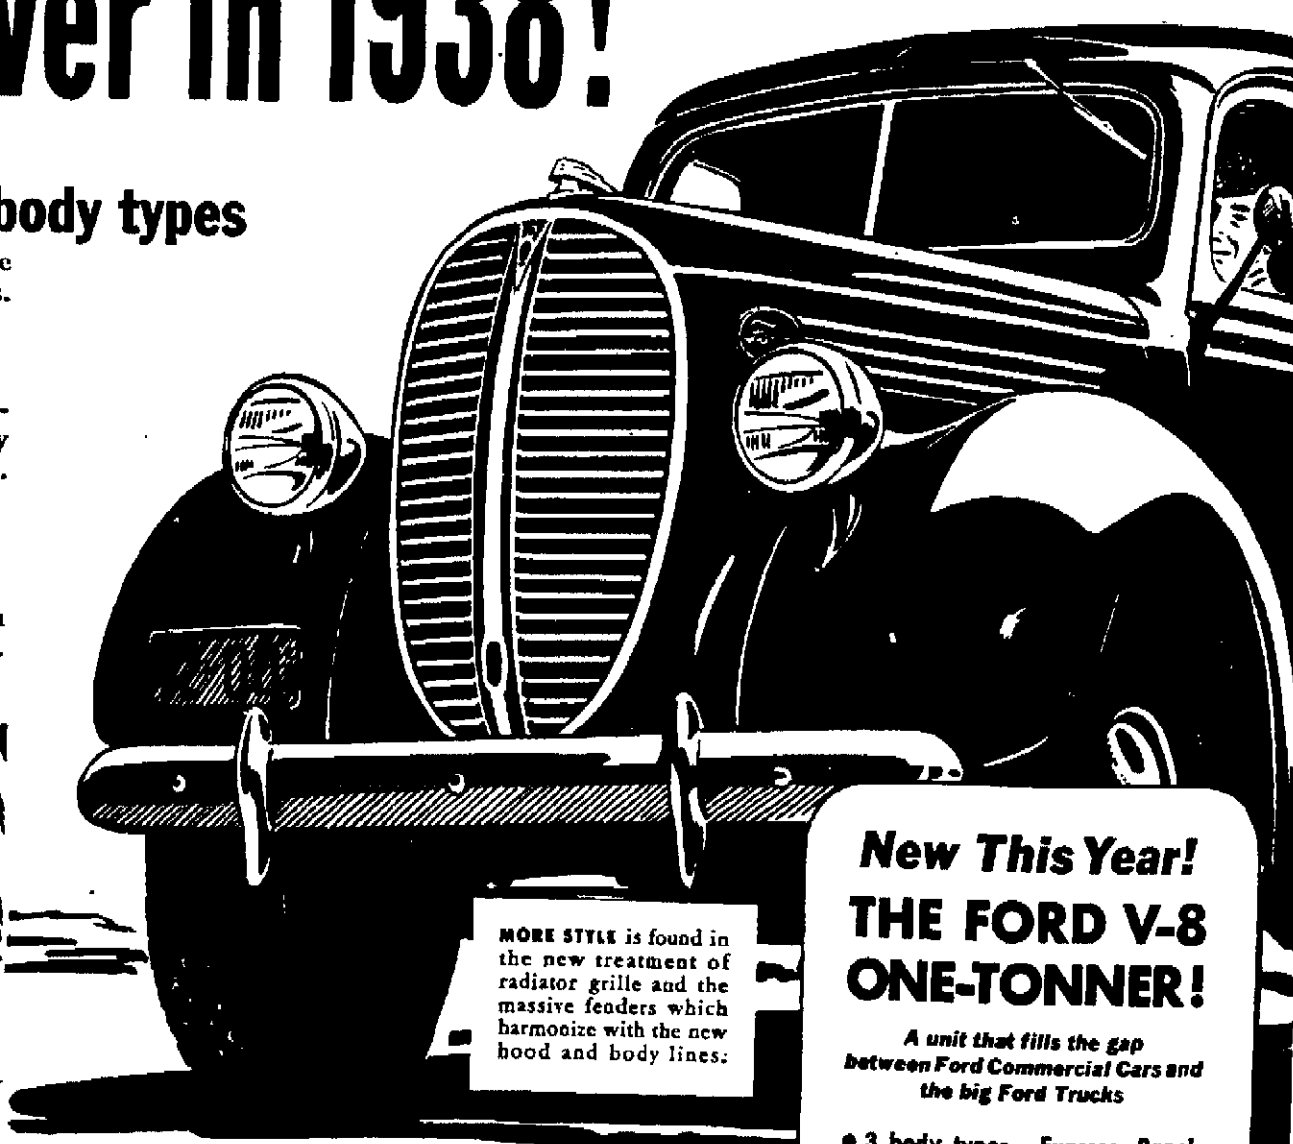

New!... The 122-in. One-Tonner. New 134" 1½-ton (formerly 131½"). 157-inch 1½-ton Trucks. 112-inch Commercial Cars.

2 engine sizes

The 60 H. P. engine available in 112" and one-ton units; 85 H. P. engine available in all units.

MORE COMFORT AND CONVENIENCE for drivers with roomier, newly styled cabs, more head room. More coils in seat cushions. New waterproof, washable upholstery, new instrument panel—foot controlled dimmer switch.

New This Year! THE FORD V-8 ONE-TONNER!

A unit that fills the gap between Ford Commercial Cars and the big Ford Trucks

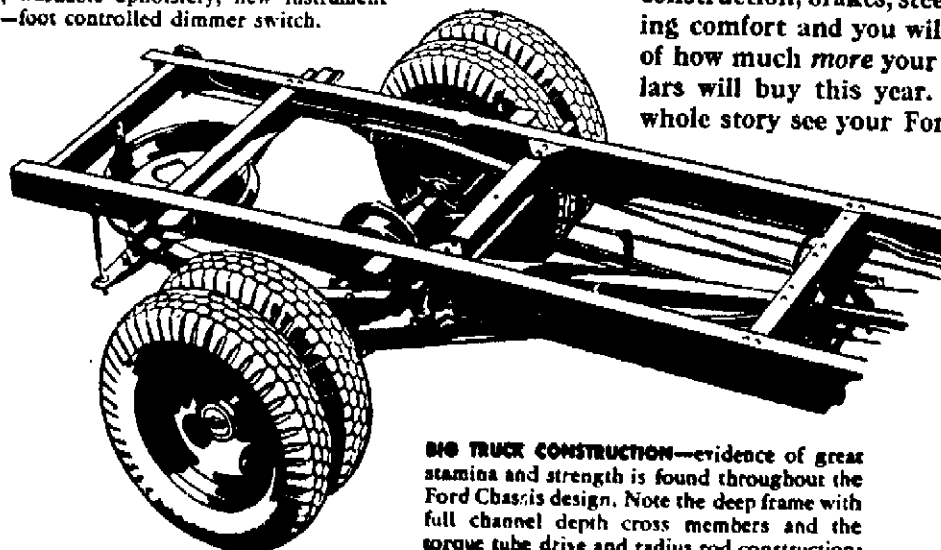

- 3 body types—Express, Panel, Stake, also chassis with or without cab for special bodies.
- Modern Styling with Handsome Rugged Appearance.
- 122-inch Wheelbase.
- Choice of 60 H.P. or 85 H.P. V-8 Engine.
- Full-Floating Rear Axle.
- Straddle-Mounted Pinion.
- Extra Large Brakes (277 sq. in. total area) with Ribbed Cast Iron Brake Drums.

—And Ford V-8 Trucks Put More Pay Into Every Payload!

Ford V-8 trucks for 1938 promise truck operators bigger hauling economies this year!

These new units offer an even wider choice of body types and wheelbases than last year. A new One-Tonner has been added to the line. A new frame width on the large units makes special body mounting easier than ever.

Add to these advancements further improvements in construction, brakes, steering and operating comfort and you will get some hint of how much more your Ford truck dollars will buy this year. But to get the whole story see your Ford Dealer today!

BIG TRUCK CONSTRUCTION—evidence of great stamina and strength is found throughout the Ford Chassis design. Note the deep frame with full channel depth cross members and the torque tube drive and radius rod construction.
